

**Template for Addendum to the ESEA Consolidated
State Plan due to the COVID-19 National Emergency
under the Elementary and Secondary Education Act of
1965, as amended by the Every Student Succeeds Act**

Delaware

**U.S. Department of Education
Issued: October 2020**

OMB Number: 1810-0576
Expiration Date: October 31, 2023

Paperwork Burden Statement According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless such collection displays a valid OMB control number. The valid OMB control number for this information collection is 1810-0576. The time required to complete this information collection is estimated to average 249 hours per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection. If you have any comments concerning the accuracy of the time estimate(s) or suggestions for improving this collection, please write to: U.S. Department of Education, Washington, DC 20202-4537. If you have comments or concerns regarding the status of your individual submission of this collection, write directly to: Office of Elementary and Secondary Education, U.S. Department of Education, 400 Maryland Ave., S.W., Washington, DC 20202-3118.

Addendum to the ESEA Consolidated State Plan

Introduction

To address the extraordinary circumstances of extended and widespread closures of schools due to the novel coronavirus (COVID-19) pandemic, on March 20, 2020, the U.S. Department of Education (Department) invited, pursuant to section 8401(b) of the Elementary and Secondary Education Act of 1965 (ESEA), each State educational agency (SEA) to request a waiver, for the 2019-2020 school year, of assessment, accountability and school identification, and certain related reporting requirements. The Department approved waivers for 53 SEAs (including the 50 States, the District of Columbia, the Commonwealth of Puerto Rico, and the Bureau of Indian Education) for the following assessment, accountability and school identification, and reporting requirements for the 2019-2020 school year to address the COVID-19 National Emergency (“COVID-19 waivers”):

- Assessment requirements in section 1111(b)(2) for the 2019-2020 school year.
- Accountability and school identification requirements in sections 1111(c)(4) and 1111(d)(2)(C)-(D) that are based on data from the 2019-2020 school year.
- Report card provisions related to assessments and accountability in section 1111(h) based on data from the 2019-2020 school year. These include:
 - Section 1111(h)(1)(C)(i) (accountability system description).
 - Section 1111(h)(1)(C)(ii) (assessment results).
 - Section 1111(h)(1)(C)(iii)(I) (other academic indicator results).
 - Section 1111(h)(1)(C)(iv) (English language proficiency results).
 - Section 1111(h)(1)(C)(v) (school quality or student success indicator results).
 - Section 1111(h)(1)(C)(vi) (progress toward meeting long-term goals and measurements of interim progress).
 - Section 1111(h)(1)(C)(vii) (percentage of students assessed and not assessed).
 - Section 1111(h)(1)(C)(xi) (number and percentage of students with the most significant cognitive disabilities taking an alternate assessment).
 - Section 1111(h)(2)(C) with respect to all waived requirements in section 1111(h)(1)(C) as well as 1111(h)(2)(C)(i)-(ii) (information showing how students in a local educational agency (LEA) and each school, respectively, achieved on the academic assessments compared to students in the State and LEA).

The waiving of these requirements, as well as the continued implications of COVID-19, impact how each SEA will implement its ESEA consolidated State plan in the 2020-2021 school year. Thus, the Department has created a streamlined process, this COVID-19 State Plan Addendum, for an SEA to amend its ESEA consolidated State plan to account for one-year changes (e.g., changes to how the SEA will hold schools accountable for the 2020-2021 school year) and two specific long-term changes: (1) shifting forward timelines by one year for identifying schools and (2) shifting forward timelines by one year for meeting measurements of interim progress (MIPs) and long-term goals due to COVID-19. All other amendment requests must be made using the regular State plan amendment process outlined in the letter sent to SEAs on October 24, 2019 (see <https://oese.ed.gov/files/2019/10/csso-letter.pdf>).

All amendment requests must be submitted by **February 1, 2021**, in order for the Department to determine whether a requested amendment complies with all applicable statutory and regulatory requirements in time for your State to implement changes to its accountability system for determinations in fall 2021 based on data from the 2020-2021 school year (e.g., identification of schools for comprehensive, targeted, or additional targeted support and improvement for the 2021-2022 school year).

The Department has also issued a “Frequently Asked Questions: Impact of COVID-19 on Accountability Systems Required under the Elementary and Secondary Education Act of 1965 (ESEA)” document which includes information on the general amendment process, accountability systems, school identification, and report card requirements. The document is available at <https://oese.ed.gov/offices/office-of-formula-grants/school-support-and-accountability/essa-consolidated-state-plans/>.

For any questions or additional information please contact the U.S. Department of Education at oese.titlei-a@ed.gov.

Submitting Amendments to the ESEA Consolidated State Plan

COVID-19 State Plan Addendum Process

If an SEA proposes to amend its ESEA consolidated State plan due to COVID-19 for the 2020-2021 school year only (e.g., for accountability determinations in the fall of 2021 based on data from the 2020-2021 school year) using the streamlined ESEA consolidated State plan addendum process, it must submit the following:

1. A COVID-19 State Plan Addendum, using this template, to the approved ESEA consolidated State plan that reflects all proposed changes due to COVID-19;
2. The signature of the chief State school officer or authorized representative; and
3. A description of how the State provided the public a reasonable opportunity to comment on the plan.

Prior to submitting an amendment to the Department, the SEA must consult with the Governor, afford a reasonable opportunity for public comment, and consider such comments consistent with the consolidated assurances the State submitted in June 2017 under ESEA section 8304.

In order to ensure transparency, the Department will post each approved addendum along with the currently approved version of the ESEA consolidated State plan at <https://oese.ed.gov/offices/office-of-formula-grants/school-support-and-accountability/essa-consolidated-state-plans/>.

If the SEA chooses to submit a State plan addendum to propose the two specific longer-term changes that can be proposed through the addendum process (i.e., shifting forward timelines for identifying schools or meeting MIPS and/or long-term goals), the SEA must submit the items listed above and also submit, at a later date, an updated State plan that incorporates those changes.

Redlined ESEA Consolidated State Plan Process

If an SEA proposes to amend its ESEA consolidated State plan to make changes that are not included in this template, it must follow the process the Department has used for the past two years. As indicated in a letter sent to SEAs on October 24, 2019 (see <https://oese.ed.gov/files/2019/10/csso-letter.pdf>), prior to submitting an amendment to the Department, the SEA must consult with the Governor, afford a reasonable opportunity for public comment, and consider such comments consistent with the consolidated assurances the State submitted in June 2017 under ESEA section 8304. An SEA submitting an amendment under the regular process must submit to the Department the following:

1. A redlined version of the approved ESEA consolidated State plan that reflects all proposed changes;

2. A cover letter describing the proposed changes;
3. The signature of the chief State school officer or authorized representative; and
4. A description of how the State provided the public a reasonable opportunity to comment on the plan.

Title I, Part A: Improving Basic Programs Operated by Local Educational Agencies (LEAs)

Statewide Accountability System and School Support and Improvement Activities (ESEA section 1111(c) and (d)) (corresponds with A.4 in the revised State plan template):

- a. ☒ **Establishment of Long-Term Goals.** (ESEA section 1111(c)(4)(A)) (corresponds with A.4.iii in the revised State plan template) Due to the COVID-19 waivers, the State is revising its long-term goal(s) and measurement(s) of interim progress by shifting the timeline forward by one year for:
 1. ☒ **Academic Achievement.** If a State is proposing to shift the timeline forward by a year, check the box.
 2. ☒ **Graduation Rate.** If a State is proposing to shift the timeline forward by a year, check the box.
 3. ☐ **Progress in Achieving English Language Proficiency (ELP).** If a State is proposing to shift the timeline forward by a year, check the box.
- b. ☒ **Indicators.** (ESEA section 1111(c)(4)(B)) (corresponds with A.4.iv in the revised State plan template) Due to COVID-19, the State is revising one or more of its indicators for the 2020-2021 school year to be used in accountability determinations in fall 2021. These revisions are limited to the 2020-2021 school year.
 1. ☐ **Academic Achievement Indicator.** Describe the Academic Achievement indicator for the 2020-2021 school year.

If a State is proposing revisions due to COVID-19, check the box and describe the revisions here.
 2. ☒ **Indicator for Public Elementary and Secondary Schools that are Not High Schools (Other Academic Indicator).** Describe the Other Academic indicator for the 2020-2021 school year.

Delaware utilizes a criterion-referenced, growth to standard methodology based on annual matched student scores to determine growth to standard at the student level.

As a result of the USED waiver from administering statewide summative assessments in Spring 2020 due to COVID-19, Delaware does not have the data necessary to calculate the Academic Progress indicator for elementary and middle schools in a credible and defensible manner. Delaware has analyzed and modeled other methodologies to calculate student growth, and results of modeling have indicated a differential impact on our most vulnerable populations.

Considering the differential impact on our most vulnerable subgroups of students, coupled with the fact that there will be no growth calculated for 4th grade in any schools statewide as the data from 2019-2020 summative assessments are not available, results from an alternative growth methodology would not be suitable for use in the state's system for accountability determinations in 2020-2021. As such, the Academic Progress indicator will not be included in the state's accountability calculation in 2020-2021.

3. ☐ Graduation Rate. Describe the Graduation Rate indicator for the 2020-2021 school year.

If a State is proposing revisions due to COVID-19, check the box and describe the revisions here.

4. ☒ Progress in Achieving English Language Proficiency (ELP) Indicator. Describe the Progress in Achieving ELP indicator for the 2020-2021 school year.

ELP is an index calculation that measures the percentage of all active ELs who make annual progress toward English Language Proficiency as measured by the WIDA ACCESS 2.0 assessment. Attainment is defined as scoring a Performance Level of 4.7 (the attainment target, or AT). Students scoring below 4.7 on their baseline ACCESS assessment have between two to five years to reach attainment depending on their initial PL. This method allows for a variable growth trajectory depending on each student's progress over time while still requiring that the attainment target be reached within the required number of years. This yearly reset recognizes the nonlinear growth that students at varying proficiency levels make within a year's time.

As a result of school closures due to COVID-19 in Spring 2020, English learners' exposure to consistent opportunities to listen, speak, write and read in English was significantly compromised. As a result, Delaware will extend the timeline to reach attainment by one year for all EL students identified as "active" in the 2019-2020 school year.

5. ☒ School Quality or Student Success Indicator(s). Describe each School Quality or Student Success Indicator for the 2020-2021 school year.

In response to school closures due to COVID-19 in Spring 2020, schools provided instruction to students via remote settings from March through June 2020. The immediate shift to remote learning resulted in major changes to attendance policies and tracking at the LEA level.

The On Track Attendance measure includes full-day excused and unexcused absences as defined by local board policies. Given the school closures and transitions to remote learning in response to COVID-19, and the resulting high levels of variability and inconsistencies in defining and collecting full-day absences at the school level continuing in to 2020-2021, Delaware does not have the data necessary to calculate this measure with any degree of validity or reliability in 2020-2021. As such, the On Track Attendance measure will not be included in the states accountability calculation in 2020-2021.

- c. ☒ Annual Meaningful Differentiation. (*ESEA section 1111(c)(4)(C)*) (*corresponds with A.4.v in the revised State plan template*) Due to COVID-19, the State is revising its system of Annual Meaningful Differentiation in fall 2021 based on data from the 2020-2021 school year:

1. ☒ State's System of Annual Meaningful Differentiation. Describe the State's system of annual meaningful differentiation of all public schools in the State for accountability determinations in the fall 2021 based on data from the 2020-2021 school year.

Per sec. 1111(c)(4)(C)(i) of the ESSA, the State's system of annual meaningful differentiation of all public schools shall be based on *all* indicators in the State's accountability system. Delaware assigns an overall rating for each public school annually based on all required indicators. Given that Delaware will not be calculating the Academic Progress indicator, which contributes the most weight to an overall index score, Delaware will not calculate or report summative ratings in fall 2021 based on data from the 2020-2021 school year. Available data will be reported to the extent credible and feasible and will be used to determine additional supports. Delaware will use the federal school identification categories to maintain differentiation of schools through 2020-2021 and exit any schools currently identified as CSI and/or ATSI if they meet the state's exit criteria.

2. ☐ Weighting of Indicators. Describe the weighting of each indicator in the State's system of annual meaningful differentiation in fall 2021 based on data from 2020-2021 school year.

3. ☐ Different Methodology. If the State uses a different methodology or methodologies for annual meaningful differentiation for schools for which an accountability determination otherwise cannot be made (e.g., P-2 schools), describe the methodology or methodologies in fall 2021 based on data from 2020-2021 school year.

If a State is proposing revisions due to the COVID-19 waivers, check the box and describe the revisions here.

- d. ☒ Identification of Schools. (ESEA section 1111(c)(4)(D)) (corresponds with A.4.vi in the revised State plan template) Due to COVID-19, the State is revising its timeline or methodologies for identifying schools using data from the 2020-2021 school year:

1. ☒ Timeline. A State may, but is not required to, shift forward by **one-year** school identifications. Complete the below table to indicate each school identification category (i.e., comprehensive support and improvement (CSI), targeted support and improvement (TSI), and additional targeted support and improvement (ATSI)) for which the State will shift identification forward for one year. Although CSI schools must be identified at least once every three years, due to the COVID-19 waivers, a State may choose not to count the 2019-2020 school year. Only complete the rows for the categories of identified schools for which the State chooses to shift the timeline forward.

A. Type of Identification	As Defined in Approved State Plan		D. Revised Next Year of Identification (i.e., one year forward from column C)
	B. Most Recent Year of Identification (e.g., identified in 2018-2019 based on data from the 2017-2018 school year)	C. Next Year of Identification as described in the current ESEA consolidated State plan	
<i>Example: Comprehensive support and improvement</i>	<i>2018-2019 school year (based on data from the 2017-2018 school year)</i>	<i>2020-2021 school year (based on data from the 2019-2020 school year)</i>	<i>2021-2022 school year (based on data from the</i>

			2020-2021 school year)
<i>Comprehensive support and improvement: Low performing ESEA section 1111(c)(4)(D)(i)(I)</i>	2018-2019 school year	2021-2022 school year (based on data from the 2020-2021 school year)	2022-2023 school year (based on data from the 2021-2022 school year)
<i>Comprehensive support and improvement: Low graduation rate ESEA section 1111(c)(4)(D)(i)(II)</i>	2018-2019 school year	2021-2022 school year (based on data from the 2019-2020 school year – lag data)	2022-2023 school year (based on data from the 2020-2021 school year – lag data)
<i>Comprehensive support and improvement: Not Exiting Additional targeted support and improvement status ESEA section 1111(c)(4)(D)(i)(III)</i>	Not Identified Yet	2021-2022 school year (based on data from the 2020-2021 school year)	2022-2023 school year (based on data from the 2021-2022 school year)
<i>Additional targeted support and improvement ESEA section 1111(d)(2)(C)</i>	2018-2019 school year	2021-2022 school year (based on data from the 2019-2020 and 2020-2021 school years)	2022-2023 school year (based on data from the 2020-2021 and 2021-2022 school years)

* Targeted support and improvement: Consistently underperforming subgroups (TSI) schools must be identified annually. Therefore, a State must identify TSI schools in the fall of 2021 (i.e., the 2021-2022 school year based on data from the 2020-2021 school year).

2. ☒ Methodologies. The State is revising its methodology or methodologies for identifying schools in fall 2021 based on data from the 2020-2021 school year for the following types of school identification:
 - a. ☒ Comprehensive Support and Improvement Schools: Low Performing. Describe the State's methodology for identifying not less than the lowest-performing five percent of all schools receiving Title I, Part A funds in the State for comprehensive support and improvement in fall 2021 based on data from the 2020-2021 school year.

 Delaware will shift forward the identification of Comprehensive Support and Improvement (CSI) schools due to low performance by one school year. The current cohort of low performing CSI schools will carry forward for the 2021-2022 school year. No new schools will be identified as low performing CSI schools based on 2020-2021 data. The next round of identifications will occur in Fall 2022 based on data from the 2021-2022 school year.
 - b. ☐ Comprehensive Support and Improvement Schools: Low Graduation Rate. Describe the State's methodology for identifying all public high schools in the State failing to graduate one-third or more of their students for comprehensive support and improvement in fall 2021.

If a State is proposing revisions due to COVID-19, check the box and describe the revisions here.

- c. ☒ Comprehensive Support and Improvement Schools: Not Exiting Additional Targeted Support and Improvement Status. Describe the methodology by which the State identifies public schools in the State receiving Title I, Part A funds that have received additional targeted support under ESEA section 1111(d)(2)(C) (based on identification as a school in which any subgroup of students, on its own, would lead to identification under ESEA section 1111(c)(4)(D)(i)(I) using the State's methodology under ESEA section 1111(c)(4)(D)) and that have not satisfied the statewide exit criteria for such schools within a State-determined number of years for school identifications in fall 2021 based on data from the 2020-2021 school year.

Delaware will shift forward the identification timeline of Comprehensive Support and Improvement (CSI) schools due to not exiting additional targeted support and improvement (ATSI or TSI-1) status by one school year. Data from the 2020-2021 school year will not be considered in the identification of CSI schools based on not exiting ATSI (or TSI-1) status. The first round of identifications will occur in Fall 2022.

- d. ☒ Targeted Support and Improvement Schools: Consistently Underperforming Subgroup(s). Describe the State's methodology for annually identifying any school with one or more "consistently underperforming" subgroups of students, based on all indicators in the statewide system of annual meaningful differentiation, including if the State is revising the definition the State uses to determine consistent underperformance for school identifications in fall 2021 based on data from at least the 2020-2021 school year.

Delaware will seek to waive the requirement to identify TSI schools in fall 2021 based on data from the 2020-2021 school year.

- e. ☒ Targeted Support and Improvement Schools: Additional Targeted Support and Improvement. Describe the State's methodology for identifying schools in which any subgroup of students, on its own, would lead to identification under ESEA section 1111(c)(4)(D)(i)(I) using the State's methodology under ESEA section 1111(c)(4)(D) (i.e., schools with subgroups performing as poorly as low-performing schools identified for comprehensive support and improvement) for school identifications in fall 2021 based on data from the 2020-2021 school year.

The second cohort of ATSI (or TSI-1) schools to be identified under this criterion was set to occur in Fall 2021 based on two consecutive years of comparable accountability data. Delaware will shift forward the identification timeline of ATSI (or TSI-1) schools by one school years. The second round of identifications will occur in Fall 2022.

- e. ☒ Continued Support for School and LEA Improvement (ESEA section 1111(d)(3)(A))
(corresponds with A.4.viii in the revised State plan template)
1. ☒ Exit Criteria for Comprehensive Support and Improvement Schools. Due to COVID-19, the State is revising its statewide exit criteria for schools identified for comprehensive support and improvement using either or both of the options below.
- A. ☒ The State does not count the 2019-2020 school year toward the number of years in which a school must meet the criteria in order to be exited.

- B. ☐ The State is revising the statewide exit criteria only for schools identified for comprehensive support and improvement that would be eligible to exit status in fall 2021 based on data from the 2020-2021 school year.

If a State is proposing revisions due to COVID-19, check the box and describe the revisions here.

2. ☒ Exit Criteria for Schools Receiving Additional Targeted Support. Due to COVID-19, the State is revising the statewide exit criteria for schools receiving additional targeted support under ESEA section 1111(d)(2)(C) using either or both of the two options below:

- A. ☒ The State does not count the 2019-2020 school year toward the number of years in which a school must meet the criteria in order to be exited.
- B. ☐ The State is revising the statewide exit criteria only for schools receiving additional targeted support under ESEA section 1111(d)(2)(C) that would be eligible to exit status in fall 2021 based on data from the 2020-2021 school year.

If a State is proposing revisions due to COVID-19, check the box and describe the revisions here.
