
Hall and Room Monitor Training

SAT Suite of Assessments: Digital Testing

General Responsibilities for Room Monitors

Room monitor(s) help set up the testing area and assist the proctor to monitor testing.

Other duties include:

- Help with student check-in
- Answer questions
- Help distribute materials
- Monitor test takers and report violations

General Responsibilities for Hall Monitors

Hall monitor(s) help with setup and make sure the areas outside the testing rooms remain quiet and secure.

Other duties include:

- Help with student check-in
- Direct students to rooms
- Patrol halls and report violations
- Cover for staff on breaks

Before Test Day

- The test coordinator should share your assignment with you prior to test day.
 - You may be assigned to a standard testing room or an accommodated testing room.
 - If assisting in an accommodated testing room, your test coordinator or SSD coordinator may provide you with additional instructions.
- You may be assigned tasks such as:
 - Covering up or removing instructional materials in a classroom
 - Collecting electronic devices and backpacks (if permitted under school policy) as students enter the testing room.
 - Setting up classrooms per seating requirements indicated in the testing manual
 - Other tasks, as asked by the test coordinator
- Ask for the name of the backup test coordinator, in case the test coordinator is not available on test day.
- Sign the Testing Staff Agreement, which will be provided to you by the test coordinator.

Room Preparation: Seating Requirements

The following are seating requirements for all testing rooms:

- Partitions and/or dividers between students are highly recommended.
- Students must be seated no less than 3 feet apart side-to-side and 5 feet back-to-back/front-to-back (measured from the center of one computer to the center of the next computer).
- Face-to-face seating configurations are only allowed with the use of partitions.
- U-shaped seating configurations are allowed; however, students must face outward and toward the wall and must not be seated next to one another in the connecting corner.
- Testing stations should be configured to prevent students from viewing one another's computer screens.
- Ensure unimpeded access to every student by staff.
- Provide enough desk space for the testing device, plus the use of scratch paper and a calculator.
- If laptops are used, they must be placed on tables or desks.

Allowable Items

During the test (including breaks), students should **only** have the following items on their desk:

- Scratch paper
- Test ticket
- Writing utensil
- Calculators
 - Calculators may only be used on the Math Test – Calculator portion, unless a student has been preapproved by the College Board to use a four-function calculator as an accommodation on the Math – No Calculator section.
- Copies of translated test directions and/or word-to-word bilingual dictionary, if applicable

Prohibited Items

Use of the following items is prohibited:

- Mobile phones, smartwatches, fitness trackers, or other wearable technology (simple nondigital watches are acceptable)
- Audio players/recorders, tablets, laptops, Bluetooth devices (e.g., wireless earbuds/headphones), or any personal computing devices other than the device used for the test
- Separate timers of any type
- Cameras or any other photographic equipment
- Highlighters
- Compasses, rulers, protractors, or cutting devices
- Books or references of any kind (other than approved word-to-word bilingual dictionaries)
- Notes, pamphlets, or papers of any kind (other than translated test directions)
- Earplugs
- Unacceptable calculators that have QWERTY (computer-style) keypads, use paper tape, make noise, or use a power cord
- Weapons or firearms

Electronic Devices

- If your school already collects phones and electronic devices for testing, we encourage you to continue using the methods that work for you and your students.
- If you do not currently collect students' electronic devices, here are some suggestions:
 - Instruct students to disable alarms and power off cell phones when they enter the testing room.
 - Collect students' cell phones and wearable technology in a basket/envelope/bag before testing begins.
 - Give students sticky notes and/or smaller envelopes to label their items with their name.
 - Collect labeled items from students once they're seated.
 - If possible, keep student items in the order they were collected in, for easier return after testing.
 - Keep the devices at the front of the room on the associate proctor's desk for the duration of testing.

Best Practice: Encourage students NOT to bring in phones or electronic devices into the testing room. Students using their device at any time during testing or during a break may result in invalidation of scores.

Snacks

- Students are encouraged to bring food or drink to consume during designated times.
 - They can be stored under a student's desk or placed in a designated area away from the testing materials.
- The testing room should have a designated area in which students can eat to ensure test materials are not ruined.
- Students may not eat or drink during the test (unless the student has an approved accommodation to do so).

Admitting Students

- Follow your test coordinator's instructions regarding admitting students to testing areas. Schools may:
 - Have a central check-in, in which you may be asked to help mark student attendance, then direct students to their pre-determined testing location.
 - Have students report directly to an assigned testing location in the morning. Help ensure that students are checking into the correct room and assist with marking room rosters, as necessary.
- Photo ID policy
 - Photo ID isn't required for students that are known to testing staff.
- Test coordinators or proctors should have created seating charts ahead of test day.
 - Do not allow students to choose their own seats.
 - Students should be assigned seats in no particular pattern so that friends and relatives are not seated next to each other.

Distributing Materials

- If helping the proctor to distribute materials, the room monitor should:
 - Make sure each student receives the test ticket with their name printed on it. If you're unsure of a student's identify, ask the student to present their ID to verify their name.
 - Test materials need to be handed to each student individually. Do not allow test tickets or scratch paper to be passed down rows by students.

Actively Monitoring: Room Monitors

Remain vigilant during the test by:

- Walking around the room to monitor students.
- Staying in the room so that students do not gain an unfair advantage.
- Observe to ensure there is no copying of answers and no communication among students.
- Ensure proper spacing. Watch for roaming eyes and signals between students.
- Ensure no prohibited items are present.
 - Look for any student using or attempting to use a prohibited aid
 - Stay focused and alert throughout the test administration by not reading books, grading papers, or working on a computer.
- Remain vigilant during breaks by:
 - Looking to see that student test-taking devices are on the correct screen.
 - Ensure that phones or other prohibited devices are not used.
 - Check that any translated instructions or word-to-word dictionaries are closed and left on the desks.
 - Students should not be discussing test content.

Actively Monitoring: Hall Monitors

- Ensure that the testing area remains quiet if other classes are still in session and students are going from class to class.
- During Breaks
 - Make certain prohibited items are not being used.
 - Students should not be discussing test content.
 - Students may eat during designated breaks in the designated areas.
- Unscheduled Breaks
 - When students need a break during an unscheduled time, staff should adhere to the following guidelines for permitting unscheduled breaks:
 - Inform students that they won't get extra testing time.
 - Allow only one student at a time to take an unscheduled break.

If prohibited behavior occurs, do not guess what to do. Follow instructions as indicated in the irregularity chart of the testing room manuals.

After the Test

- Assist the proctor in collecting testing materials when all testing and administrative activities are complete.
 - Students may need to complete the optional questionnaire and score sends in TIDE (SAT only). The proctor has instructions in the manual regarding how to assist these students.
 - Do not allow students to pass testing materials down the rows. Pick up materials from students individually.
 - All materials must be accounted for before dismissing students.
- If an irregularity occurred in a classroom, provide any information that the proctor needs to fill out a coordinator's Irregularity Report (IR).
- Assist the proctor or test coordinator in any other tasks, as assigned.

Thank you for
your assistance in
making test day
go smoothly!

Contact your test coordinator
if you have any questions.
