

Vaping at New Trier

RESULTS FROM THE 2018 YOUTH RISK BEHAVIOR SURVEY

Vapes (JUULs)

Sample **SIX** Pack

2018 Youth Risk Behavior Survey Data

- ▶ Sample size – 3,209
- ▶ 7% of the sample was eliminated
- ▶ Data was evaluated by Greg Barker at Northern Illinois University
 - ▶ Data was “cleaned” to eliminate responses that were deemed to be invalid. This was done by:
 - ▶ Eliminating students who said “no” on the survey question “Did you answer the questions on this survey honestly?”
 - ▶ Eliminating students whose responses were inconsistent in any of the following sections: substance use or sexual activity.

30 Day Substance Use: Historical Comparison

30 Day Substance Use: Actual vs. Perception

30 Day Substance Use: National Comparison

30 Day Substance Use Perception: Historical Comparison
