Henry County is second fastest growing County in the State

E-SPLOST

Education – Special Purpose Local Option Sales Tax

Prior to E-SPLOST, the only way a school system could maintain/upgrade or build facilities was through property taxes. In 1996, Georgia voters approved a constitutional amendment to allow school boards to call for a referendum to ask constituents to approve a one-cent special purpose local option sales tax for education, or E-SPLOST.

Henry County Schools put such a referendum out to voters in 1997. It was approved, and collections began in 1998. The continuation of this one-cent sales tax has been overwhelmingly approved by Henry County voters four consecutive times.

Opportunities ...for Pennies!

- E-SPLOST I – Approved by voters in 1997
- First funds collected in 1998
- E-SPLOST collections run 5 yrs.
- HCS currently receiving collections from one-cent sales tax as a part of E-SPLOST 5 approved in 2016.

E-SPLOST Funds

- Can ONLY be used for capital projects for education purposes (construction, technology, transportation, learning equipment and resources); General Obligation Bond debt retirement; new General Obligation Bonds for capital outlay projects.
- CANNOT be used for salaries/benefits.
- Tax is not subject to any sales tax exemption such as food and beverage exemptions.

Opportunities ...for Pennies!

- 90% of the HCS General Operating Budget goes toward salaries and benefits of staff for schools
- Less than 10% is left to cover Operating Expenses annually to serve 43,000 students
- E-SPLOST is used exclusively for capital projects

Who Supports E-SPLOST?

- Travelers
- Sports Enthusiasts
- All businesses in the county
- Anyone who eats, sleeps, or shops in Henry County

Opportunities ...for Pennies!

- NASCAR races in Hampton are the single largest sporting event in the state
- Youth sports tournaments are quickly rivaling number of fans and visitors to other collegiate and professional sports events
- Millions of motorists travel I-75 annually and stop for gas, food, lodging.

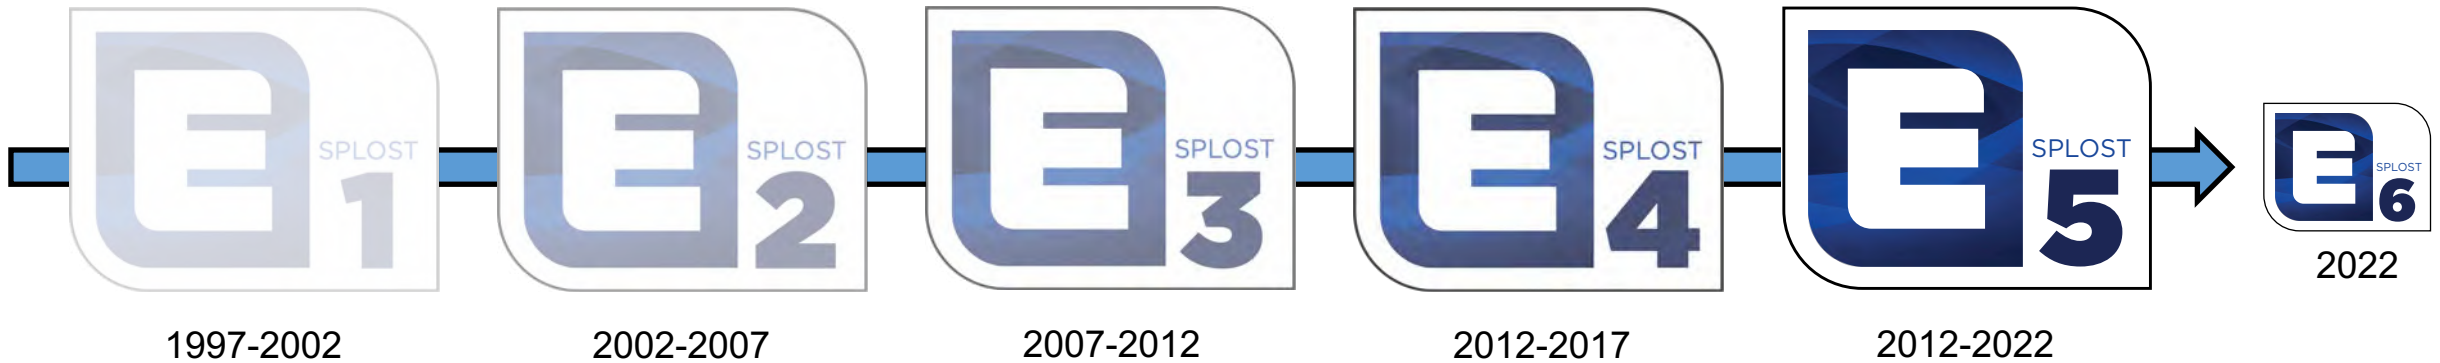

Growth over the last 20 years...

1999	2009	2019
County Population 113,000	County Population 200,000	County Population 230,000
Student Enrollment 21,688	Student Enrollment 40,624	Student Enrollment 42,641
Number of Schools 22	Number of Schools 45	Number of Schools 52
Number of Employees 3,000	Number of Employees 5,150	Number of Employees 5,987

and the Strategic Plan

Charting our Future

SPLOST 6

Proposed Projects

Safety & Security

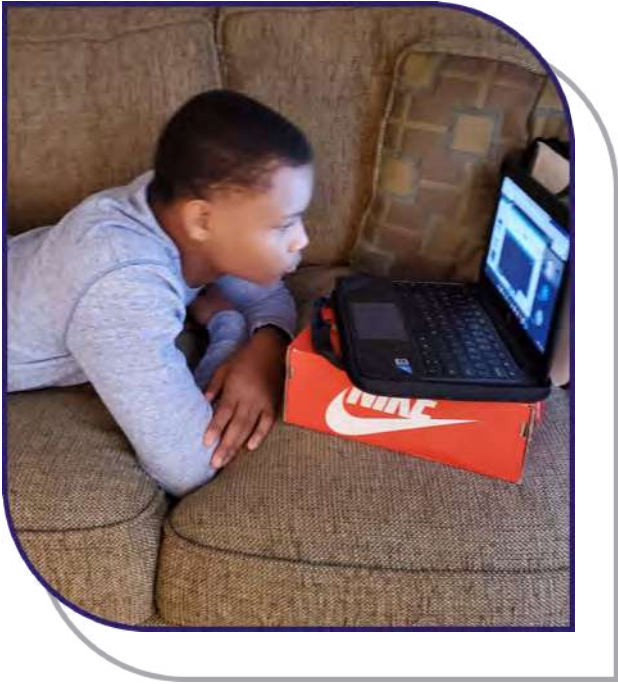

- Security Access Control *Key Card/Buzzer Entrance at every school
- Fire Alarm System Upgrades
- Intercom System Upgrades

Henry County Schools is committed to enhancing and upgrading safety and security measures. E-SPLOST 6 will provide all schools with Security Access Control to ensure buildings are secure. There will also be upgrades to fire alarms and intercom systems at schools with aging equipment.

Technology

- Student Laptop/Tablet Device Refresh (1 per student)
- Teacher & Staff Laptop Refresh
- Digital Infrastructure Upgrades
- Digital Privacy & Protection Updates

Technology refresh is scheduled approximately every five years. E-SPLOST 6 funds will refresh the current student and employee devices across the district and provide other necessary upgrades to support digital infrastructure and access for all students and staff.

Transportation

- Bus Replacement Plan *25 new clean fuel & air-conditioned buses per year
- New Bus Maintenance Facility (west side of I-75)
- Renovation of current Bus Maintenance Facility

Buses and modernized transportation maintenance facilities are essential to ensuring our students can get to and from school, as well as other learning opportunities and extracurricular activities outside of the school. Henry County Schools will replace 25 buses per year during the E-SPLOST collection period to modernize the fleet. And a new facility will be constructed to support bus maintenance and alleviate the main facility which will also be renovated.

Instructional Resources

- Instructional Resources for Teachers
- Learning Resources for Students
- Intervention Tools

E-SPLOST collections can support instructional resources, too. Standards aligned resources in World Languages, CTAE (Career, Technical, and Agricultural Education), Fine Arts, Health/PE, ESOL (English to Speakers of Other Languages), Math, Science, Social Studies, ELA (English Language Arts) and Intervention tools will be purchased, with a balance between print and digital resources.

Fine Arts Investment

- **Instruments** for growth & replacement in existing Band/Orchestra programs
- **Instruments** for new Orchestra programs
- **Equipment** for Choral, Music, Visual Arts & Theater classes (K-12)

Henry County Schools will grow band and orchestra to every middle and high school to provide a well-rounded educational experience. The important connection these offerings provide to our students will be enhanced with the next E-SPLOST.

Robotics

- **Robotics** course materials for every school (K-12)

The interest in robotics programs in Henry County Schools has increased across all levels. To support interest, robotics course materials will now be made available to every school in the district.

New Construction

- STEM High School
- Wolf Creek Elementary (to relieve Unity Grove ES and Locust Grove ES)
- Willow Lane Elementary (to relieve Oakland ES and Wesley Lakes ES)
- District Administrative Office
- Transportation Facility

The current E-SPLOST 6 proposal includes the construction of one district-wide STEM High School, two elementary schools, a transportation facility, and a district administration building. The STEM high school is a prime example and reflection of the community voice and interest in expanding STEM (Science Technology Engineering Mathematics) opportunities for students, while the two elementary schools ease population growth in targeted areas in the county.

School Expansions

- Dutchtown High School
- Locust Grove High School
- Ola High School
- Dutchtown Middle School
- Ola Middle School
- Union Grove Middle School

To prepare for the current and anticipated growth in the community, three high schools and three middle schools will have their building footprint adjusted to expand classroom space to accommodate the growing student population. This investment will eliminate all current classroom trailer use in Henry County Schools.

School Marquees

- Digital Marquee at each school (52)

Each school will get a new communication tool to help keep their school communities informed. Electronic marquees will replace the current signage at the street entrance to each campus.

School Maintenance / Systems Upgrades

- Roofing Replacement (10 schools)
- HVAC Replacement (8 schools)
- Energy Management Enhancements (15 schools)

Routine upgrades for many schools, including new roofs and energy management systems will be covered under the proposed E-SPLOST 6.

Voting in Henry County
