

GEER/ESSER II Plan Summary

- Governor’s Emergency Education Relief II (GEER) = \$3,458,598
- Elementary and Secondary School Emergency Relief II (ESSER) = \$18,288,510
 - Resources to address unfinished learning for students in every district and charter school through acceleration in literacy (rising 1-6 graders), math (rising 1-8 graders) and evidence-based high-dosage tutoring for the most struggling students.
 - Access to online texts for K-12 students in every district and charter school.
 - Access to credentialed programs and apprenticeships in an online format for every user in Delaware.
 - Communication with families of English Language Learner students in every district and charter school.
 - Educator support and pipeline development.
 - Socioemotional/behavioral health services.
- Total funding = \$21,747,108

Proposal	GEER II	ESSER II	Notes
Fund one year of whole school PD at high needs schools.	\$2.4 million		This is a Redding Consortium recommendation, based on the model from Laurel/Seaford.
Support Delaware’s school-based wellness centers.	\$640,000		Provide a \$20,000 grant to each of the 32 wellness centers and partially satisfies a Redding recommendation.
Fund year two of the Governor’s Institute for School Leadership	\$250,000		Funds a second year of this important program for school and district leaders.
Strengthen the teacher pipeline	\$168,598		Invest in enhanced communication efforts to raise awareness of and increase participation in existing programs designed to create a diverse and more sustainable pipeline of educators for Delaware’s students.
Licenses and Workbooks for Zearn (Mathematics)		\$1 million	Rising 1-8 grade students in district and charter schools will have access to a high quality digital mathematics program that is standards-aligned and adaptive with daily diagnostics that determines each student’s understanding, and automatically launches support for use in summer/extended instruction, in class, and at home.
High Dosage Tutoring		\$5.6 million	Evidence-based approach to accelerate learning for the most struggling students in every district and charter school; will fund tutors for students who have been most impacted by unfinished teaching and learning.

Licenses for Online Text Repository		\$4.5 million	We will provide access to online text access for every district and charter school student with the ability to monitor how many books students read and how long students spend reading. This will include school e-book and Delaware public library collection
Transition Credentialed Programs to Online		\$500,000	Credentialed programs and apprenticeships will be transitioned to an online format so that secondary and post-secondary students can access courses that were only available in person.
Chinese Language Support Interventions		\$50,000	For dual language immersion grade 5 and 6 students, provide sessions with a live teacher through Mandarin Matrix Academy.
Literacy Acceleration Summer Booster content and PD		\$750,000	We will provide Summer Booster content and training for educators to implement accelerated literacy programs to accelerate student learning using their core instructional materials
Training and PD - Zearn		\$500,000	We will provide training for educators and tutors as well as support for families on how to use Zearn to support students currently in grades K-7.
English Learner Language Lines		\$700,000	Support a statewide contract for a language line that districts and charter schools can use to ensure two-way communication with families in a language that families can understand.
Parent Leadership Training Institute - Statewide Project		\$80,000	Focus on involving ELL and minority parents to learn skills, knowledge and confidence to become active partners with school systems.
Family Treasure Book		\$30,000	Multi-session project that includes vocabulary development, sentence building and speaking skills.
Teacher Growth and Development - Unfinished Learning		\$2 million	We will provide training for educators focused on strategies to assess unfinished learning and meet the needs of all students.
Socioemotional/Behavioral Health		\$2 million	OEI, Student Support, and Academic Support will provide systems support through coaching, professional learning and staff.

**Some GEER/ESSER funds are withheld for audit and administration purposes.*
