facebook OCTOBER SKY PROJECT

Objective: You will create a fake Facebook page based on the book October Sky. You will do this on paper, NOT a real webpage. There are several templates available (word or PowerPoint), you will need to "Google" them. I will post one on my webpage at school.

- Your page will be based on the life of the individual from your book.

- Create a profile for your character figure. Profile information you must include 5. Choose the ones that you can use to best support you understanding of the book.

  - Hometown/Current town

  - Relationship Status

  - Activities (with explanations of why your character would be engaged in these activities)

  - Favorite Books/TV/Music your character would enjoy and explanation of why your character might read them.

  - Birthdate

  - Include groups your character might join and explain why he or she might join them

- Friends: Include profile pics of at least 6 "facebook friends" of your character

- As you read, pull out a short quote or isolate an important moment during the era we are studying that can be easily made as a **status update**. Include a min of **8** "Status updates" by the protagonist and **6** replies from other characters.

  - All posts and replies must accurately demonstrate

    - Understanding of the story and the character

    - Growth or development of the character tied to the events of the story (must go in chronological order)

    - The relationship with the protagonist

    - The purpose of a status update is to inform your "friends" about what doing/feeling/experiencing at different points in history.

  - You also need to create photos for your character. Include a minimum of 3 photos of situations, settings or circumstances in which your character might be involved or interested. Include 2 photos in which your character might be "tagged."

facebook. OCTOBER SKY PROJECT

- You will also have another aspect of facebook that you wish. You can create groups. Create ads on the side of your page (real or imaginary). You can give virtual gifts based on the plot of the story.

- Please understand that you are <u>not</u> creating a real Facebook page on the internet. You may do this assignment by electronically by cutting and pasting the icons from your facebook page. If you have the ability to do this by other means, please feel free! You are welcome to use the "Facebook" Icons. Depending on your update:

        👍 Like (other historical figures can like or dislike your updates)

        📅 Add event

        💬 Make a comment about someone else's post

Others may be used as long as they are legitimate facebook icons
