Subject: Opportunity to Provide Feedback on the Revised Hawaii Common Core ELA Standards

Dear Parent(s)/Legal Guardian(s):

The Hawaii Department of Education (Department) is committed to providing a high-quality education that meets the needs of all students. As part of our ongoing efforts to enhance the learning experience, we are excited to announce an important opportunity for your input.

The Department adopted the Hawaii Common Core State Standards for English Language Arts in 2010. This school year, the Department is reviewing and revising these standards. During this process, the Department works with a team of content experts, teachers, district staff, and institutes of higher education.

These standards are the framework for students' educational experiences in Hawai'i. Future guidance will provide support with integrating these standards into the local community context.

We invite you to take part in this collaborative effort by sharing your feedback on the proposed revisions to the standards using the survey at this link <https://bit.ly/48XS1v9> or via the QR code below. We believe that your insights and perspectives as parents and guardians are invaluable in this process. The deadline for providing feedback is **February 23, 2024**. All survey questions are optional and anonymous.
