

Focused

What is FocusED?

FocusED is targeted professional learning for educators to interact with national experts on today's biggest topics impacting education. Sessions are FocusED and brief for busy educators - 70 minutes.

What's the format?

National experts join us virtually to focus on a pressing issue in today's schools. Onsite facilitators lead a discussion on the application of the topic to schools in Delaware. Participants are eligible to receive free resources - books written by the national expert being featured for the month.

Who attends?

All active educators looking to refine their leadership skills are invited to attend this program.

More information?

See reverse side for dates and registration information.
