- Dr. Bavis provided an overview of the Curriculum Forum highlighting that the purpose of the Curriculum Forum is to give feedback on textbook proposals and that the Forum is not a decision-making body.
- Department Chairs provided brief overivews of coure changes and new courses.
- Teacher members asked about the impact that the health scinece pathway would have on FTE, and what the classroom needs will be for such a program. Hope Stovall pointed out that that it would be a 1.0 teacher add, and that the room would need to meet IDPH guidelines.
- Teachers expressed enthusiasm about the new history offerings.
- Teachers provided feedback on the new transdisciplinary science courses specific to clarifying how it meets the need for literacy intervention.
- Monique Parsons thanked the committee for providing input and acknowlewdged that this was her new committee.
