Learning Targets:

L2: I can demonstrate command of the conventions of Standard English capitalization, punctuation, and spelling when writing.

RL1: Explain how an author uses reasons and evidence to support particular points in a text.

RI2: I can determine the main idea of a text and explain how it is supported by key details.

RL2: Determine a theme of a story, drama, or poem from details in the text; summarize the text.

SS4H5: I can explain the causes, major events, and consequences of the Civil War.

NF7: Compare two decimals to hundredths by reasoning about their size. Recognize that comparisons are valid only when the two decimals refer to the same whole. Record the results of comparisons with the symbols $>$, $=$, or $<$, and justify the conclusions, e.g., by using a visual model.

S4P3: I can obtain, evaluate, and communicate information about the relationship between balanced and unbalanced forces.

ESGM4.PR.3a: I can read, notate and identify quarter notes, half notes, quarter rests, barred eighth notes and sixteenth notes.

NHE REMOTE LEARNING PLAN

Week 1

Teacher: 4th grade

Date: March 18 - March 23, 2020

Enrichment:

Optional Activity to Accelerate Learning

(Mrs. Perryman)

Reading:

Learning Target (5.RI.2): I can determine two or more ideas of a text using key details.

Task: Select one article from Scholastic News:

“Who are You Calling Ugly”

“Are Youth Sports too Intense”

“Fossils Found in Hollywood”

“Top Toys”

Reading Strategy - What? and So What?

A main idea is more than a topic. To state the main idea, it's important to know what the text is about (topic) and then be able to say what about it. The main idea can be an angle, idea, or perspective that the author brings to the topic. Often there is more than one main idea.

Create a Google Slides or video news report on the topic. Answer the following questions through your reporting:

-What is the topic of the article (what the text is about)?

-What is one main idea of the article (author's angle, idea, or perspective)?

-What is a second main idea found in the text?

Share the final product with your classroom teacher.

Math:

Learning Target (5.NBT.3): Read, write, and compare decimals to thousandths.

Task: Extend your child's understanding of decimal place value into the thousandths place. Watch [video 1](#) and [video 2](#). Print and cut out [decimal number cards](#). Put cards in a stack face down. Pull two cards at a time. Have your child discuss which decimal has a greater value. For support, have your child write each number in a [place value chart](#).

Place Value Chart with Decimals							
ten thousands	thousands	hundreds	tens	ones	tenths	hundredths	thousandths
