FY 2023 General Fund Initial Budget Summary

- Estimated Beginning Fund Balance The estimated fund balance to start the year on July 1st, 2022 is \$49 million which represents 25.9% of FY23's budgeted expenditures. This is a healthy reserve (above CCSD's benchmark of 15%), the fund balance is not expected to dip below 15% throughout all of FY23.
- **Estimated Revenue -** The current estimate for total revenues sits at \$189,130,354. This estimate is based on the following assumptions.
 - o 18.2% growth in the net tax digest and adoption of a millage rate at 18.8 mills.
 - o Though CCSD's enrollment is expected to stay consistent, Quality Basic Education (QBE) funding from the state will increase \$3.4 million. For FY23, QBE will be considered "fully funded" and the state will not be assessing austerity against the school district allotments. There is also an increase in funding to help offset the governor's \$2,000 teacher raise.

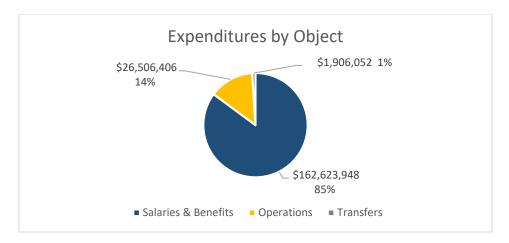

• **Budgeted Expenditures** – The current budget for FY23 sits at \$189,130,354. When broken down by function, instruction accounts for 63% and support services accounts for 36%.

When broken down by object (see below), 85% of the FY23 general fund budget consists of salaries and benefits. Funding for the following positions are included:

- o 9 Board Members
- o 1,324 Certified Employees
- o 767 Classified Employees

Internal transfers to other funds account for 1% and include allocations for ROTC (fund 482), equalization of Pre-K salaries (funds 560 and 561), and Better Every Day grants (funds 121 and 122). Operational expenditures account for 14% of the budget and includes everything that's not salary and benefits nor a transfer out.

- Ending Fund Balance The estimated fund balance at the end of the year on June 30th, 2023 is \$49 million. It is important to note this is equal to the beginning fund balance; the FY23 budget is balanced.
