# MOWR Enrollment Process

- a) Eligible 11<sup>th</sup> or 12<sup>th</sup> grade student and parent/guardian must meet with high school counselor to receive MOWR advisement information.
- b) High school counselor verifies student meets all requirements, completes the *Move On When Ready Participation Permission Form*, and gives student/parent a copy.
- c) College courses are selected that will satisfy H.S. graduation requirements.
- d) Copy of all MOWR information is sent to postsecondary MOWR contact person if requested.
- e) Student is notified by the postsecondary institution of acceptance.

# Move On When Ready Participation Permission Form

Move on When Ready (MOWR) provides opportunities for high school juniors and seniors to enroll full-time in postsecondary institutions to earn both high school and college credits. "Move on When Ready Act"; to provide for definitions; to provide a program for eleventh and twelfth grade students to attend postsecondary colleges and schools for high school credit; to provide for notice to parents and students of the program; to provide requirements for course credit; to provide for state funding; to provide for testing; to provide for related matters; to repeal conflicting laws; and for other purposes. (O.C.G.A. Sec. 20-2-161.3)

The counseling services concerning participation in Move On When Ready have been provided to the participant and parents/guardians. The program's guidelines and the student responsibilities have been explained and discussed and they clearly understand what is expected to be able to enroll and continue participation in MOWR.

Tuition, fees and materials are the only costs that MOWR FTE funding covers. All other expenses will be the student and parents/guardians responsibility to pay.

Yes/No The student is currently on track to graduate from high school and meets all the eligibility requirements for participation.

Yes/No The student is a resident of Georgia. (A resident of Georgia is deemed to be an individual who is lawfully domicile in the State of Georgia, according to Federal and State laws and who has been in enrolled in a public school for funding purposes during the preceding October and March full-time equivalent (FTE) program counts in accordance with Code Section 20-2-160.)

## Education Career Partnerships Secondary to Postsecondary Transitions

### Overview

Education Career Partnership is structured to support and promote postsecondary credit opportunities to ensure that all local systems develop, expand, and promote career pathways and programs of study for seamless transitioning of students from secondary to postsecondary education and into careers. ECP will help develop a well-educated, technically trained, and highly competitive workforce in Georgia that will be widely recognized as the best in the nation. Through a coordinated effort with business and industry, ECP is designed to prepare students for career opportunities by providing an education that is composed of coherent, articulated sequences of rigorous academic and career related courses. This will lead students to postsecondary institutions for an industry recognized certificate/or licensure, an associate and/or higher college degree, and successful employment. Business and industry partners play a vital role in defining appropriate standards of performance, providing input concerning the validity of current pathways, and assessing school programs to assure we are preparing the skilled professionals they need.

### ECP Vision

To form partnerships that build workforce development opportunities for students through career pathways.

### Mission statement

To strengthen the link between secondary and postsecondary education and to maximize the successful, seamless transition of students from one educational level to another that includes increased student academic, career and technical achievement. To assure that every student will be prepared to advance to a successful career and understand the benefits of lifelong learning.

### ECP Goals

1. Produce graduates who are ready for college level studies and/or direct entry into a high skill, high wage and high demand work force.
2. Provide guidance to local systems in developing appropriate career pathways to increase and improve opportunities for students.
3. Involve and engage business and industry through establishment of a local business council for the purpose of providing resources and support for secondary Career Technical Education and engaging students in workforce development.
4. Assist in the development and implementation of a more effective seamless transition process.
