

Name \_\_\_\_\_

Date \_\_\_\_\_

1. Round to the nearest ten thousand. Use the number line to model your thinking.

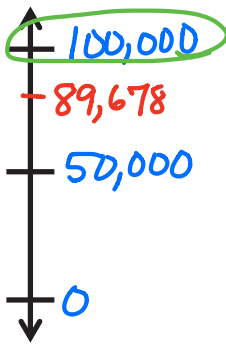

a.  $35,124 \approx \underline{40,000}$

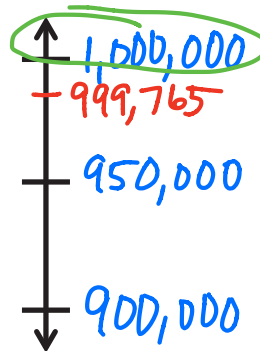

b.  $981,657 \approx \underline{980,000}$

2. Round to the nearest hundred thousand. Use the number line to model your thinking.

a.  $89,678 \approx \underline{100,000}$

b.  $999,765 \approx \underline{1,000,000}$

3. Estimate the sum by rounding each number to the nearest hundred thousand.

$257,098 + 548,765 \approx \underline{800,000}$

$300,000 + 500,000 = 800,000$
