

Name _____

Date _____

Using the diagram below, create your own word problem. Solve for the value of the variable.

(A)
$$\begin{array}{r} 29,435 \\ + 15,387 \\ \hline 44,822 \end{array}$$

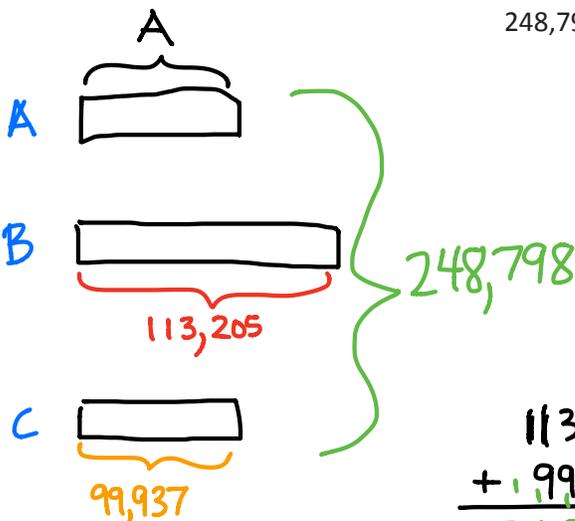

TOTAL
$$\begin{array}{r} 44,822 \\ + 15,387 \\ \hline 60,209 \end{array}$$

City A has a population of 29,435 more people than City B. City B has a population of 15,387 people. What is the total population of the two cities?

The total population is 60,209 people.

2. Using the equation below, draw a tape diagram and create your own word problem. Solve for the value of the variable.

$$248,798 = 113,205 + A + 99,937$$

In total, Alice, Barbara, and Carol have \$248,798. Barbara has \$113,205 and Carol has \$99,937. How much money does Alice have?

$$\begin{array}{r} 113,205 \\ + 99,937 \\ \hline 213,142 \end{array}$$

$$\begin{array}{r} 248,798 \\ - 213,142 \\ \hline 35,656 \end{array}$$

Alice has \$35,656
