Please ask for the SSN and keep it secure in your SIS.

If the parent signs a waiver, check (transfer papers or GTID) to see if the student has an SSN substitute – 800#. That 800# should be treated like the student's SSN. It should be used to help identify that student as long as he is in a Georgia public school.

GTID - Suggestions

1. Don't enter/upload a GTID unless it is complete.
2. If you find a problem in a student's GTID History or Student Profile History, contact me through the Portal.
3. If you enter a student in GTID individually, then pull up the Student Profile when enrolling the student. Find out which special programs the student was enrolled in.
4. If you enter a student in GTID individually, check for Special Education History when enrolling the student.
5. Create a schedule for pulling the Special Education History Report by Claim Date DETAIL (weekly?).

GTID - Suggestions

6. Pull the Special Education History Report by Claim Date LIST by school to have the School Special Education Lead verify that all SWD students have been assigned to a Case Worker, are getting served, have FTE segments, etc. (especially prior to FTE)

7. Pull the Special Education History Report by E799 now, and again after FTE 3. Make sure these students are served or exited from Special Education by the close of SR.

8. Create a schedule for pulling the GTID Claims Report. Pull the GTID claims (weekly, monthly) by school to verify that transfer students are marked 'T'.
