

**Guide to Preparing
for the Florida
Algebra 2
End – of – Course
Assessment**

FSA Algebra 2 End – of – Course Assessment

General Information:

The Florida Algebra 2 End – of – Course Assessment (FSA Alg2 EOC) is administered 3 times a year. All students enrolled in Algebra 2, Algebra 2 Honors or equivalent course must take the Algebra 2 EOC. Passing the FSA Algebra 2 EOC is accomplished by earning a level 3 or higher on the FSA Alg2 EOC. The FSA Alg2 EOC is 30% of the student’s final grade*. Earning credit in Algebra 2 can be done two ways: passing the FSA Alg2 EOC or passing the course once the FSA Alg2 EOC has been included as 30% of the final grade. Below is a table showing the Achievement Level and the Assessment Scale scores.

FSA Algebra 2 EOC Assessment Scale Scores (425-575)				
Level 1	Level 2	Level 3	Level 4	Level 5
425-496	497-510	511-528	529-536	537-575

All information regarding the FSA Alg2 EOC can be found on the FSA Portal: www.fsassessments.org. Once you are at that site you can enter your email address in the upper right corner to receive email alerts.

The FSA Alg2 EOC is a Computer Based Test (CBT) administered over two days. Each day is a 90 – minute session. The first session is a non – calculator session and the second session is a calculator – permitted session. There is a total of 64 – 68 items on the FSA Alg2 EOC, about 32 – 34 items per session. Students who are not finished after 90 minutes may continue working on the test, but must be completed within half of a school day.

FSA calculator, reference and formula sheets:

During the calculator – permitted session, students will have access to an online scientific calculator. The calculator can be found at: <http://demo.tds.airast.org/TDSCalculator/TDSCalculator.html?mode=ScientificInv>. Students may use a hand-held scientific calculator provided it meets the functionalities put forth by the State. Below are some models that have been approved by FLDOE.

TI – 30Xa	FX – 260 Solar	EL – 501X	EL – 510 RN
-----------	----------------	-----------	-------------

The conversion tables and formulas that will be permitted on the FSA Alg2 EOC can be found at: http://fsassessments.org/wpcontent/uploads/2015/01/FSAMathematicsReferenceSheetsPacket1_Updated-January-8_2015.pdf.

* Students who took the FSA Alg2 EOC during the '14 – '15 school year did not receive a level score. The FSA Algebra 2 EOC was not included as 30% of their final grade calculation. Please contact your student’s counselor for clarification.

Test breakdown:

The Alg2 EOC has three reporting categories that are weighted differently. The weighting of the categories is seen in the table below.

Category	Percentage
Algebra and Modeling	36
Functions and Modeling	36
Statistics, Probability, and the Number System	28

The Test Item Specifications can be found at the following link: <http://fsassessments.org/wp-content/uploads/2015/03/Algebra-2-Test-Item-Specifications.pdf>.

Other resources that may be used to prepare for the FSA Alg2 EOC

FSA Practice Tests: While the practice tests provided are aligned to content standards, the primary purpose of the test is to provide opportunities for students to use the tools that will be used when answering the variety of question types on the Computer Based Test (CBT). Students can access and take the tests as often as they like, but the questions will not change. <http://www.fsassessments.org/students-and-families/practice-tests/> (Use Chrome or Firefox)

Partnership for Assessment of Readiness for College and Career (PARCC) Practice Tests: Both paper based and computer based practice is available. The questions are a good resource for the types of questions that may be found on the FSA A2 EOC, but there is not digital tool practice available. <http://www.parcconline.org/assessments/practice-tests>

Khan Academy Core: Students can select practice problems by standard or topic. This site has digital tool practice and content tutorials. <https://www.khanacademy.org/commoncore/>

Math Nation: A partnership with the University of Florida and Study Edge; offers lesson videos, study guides and a test yourself section to help students prepare for the state assessments. Students can get the Active Directory Logins from their teachers. <http://mathnation.com/>
