Children who are 5 years old by July 31st may register for Kindergarten.

Department of Health Requirements for Hawaii Public School Entry

Hawaii State Law requires that all new students entering any school in Hawaii must have the following documents by the FIRST DAY OF SCHOOL: (Must be within 12 months before first entry into school in Hawaii.)

- 1. Tuberculosis clearance:**
 - **Required 12 months before** first entry into school in Hawaii/clearance **must be current** for student to attend the first day of school.
- 2. Physical examination:**
 - Within one year before school entry.
- 3. Student Health Record:**
 - **Original Form #14** or copies of the child's health and immunization records.

We highly encourage our families to bring the child's health records to the school office before May 1, 2020 so the health aide can review records and inform parents if further immunizations are required before the child can enter school.
