COURSE DESCRIPTION

AP U.S. History is an introductory college-level U.S. history course. Students cultivate their understanding of U.S. history from c. 1491 CE to the present through analyzing historical sources and learning to make connections and craft historical arguments as they explore concepts like American and national identity; work, exchange, and technology; geography and the environment; migration and settlement; politics and power; America in the world; American and regional culture; and social structures.

LEARNING OUTCOMES

The learning outcomes are derived directly from [The College Board's Course and Exam Description for Fall 2020](#)

In AP U.S. History, students investigate significant events, individuals, developments, and processes in nine historical periods from approximately 1491 to the present. Students develop and use the same skills and methods employed by historians: analyzing primary and secondary sources; developing historical arguments; making historical connections; and utilizing reasoning about comparison, causation, and continuity and change. The course also provides eight themes that students explore throughout the course in order to make connections among historical developments in different times and places: American and national identity; work, exchange, and technology; geography and the environment; migration and settlement; politics and power; America in the world; American and regional culture; and social structures.

ACTIVITIES AND ASSESSMENTS, EVALUATION PROCEDURES, AND GRADING

Activities and Assessments:

Students are expected to complete a National History Day project, this can be done individually or in a group of 2-5. Students will choose from a documentary, website, or write a research paper. While this will be your project grade for the course, there may be assignments related to your project that will count as classwork or homework as well.

Assessments will be in the format of multiple choice questions, DBQs, FRQs and will count as test points. There will typically be one of each type of assessment per unit.

Short answer questions will count as quiz grades typically be used at the beginning of class and will be over previously covered materials.

This course will be taught both synchronously, where students are learning as a group and engaged in learning at the same time. This will be live via Google Meets (and eventually Zoom when we migrate to the new platform) and you are expected to be visible on camera and participate fully in the class activities. Classes will be recorded and a chat transcript retained.

Asynchronous activities are activities students complete at their own pace and during their own time up until the assignment closes. There will asynchronous time built into each day's lesson. However, if a student does not complete an assignment during the classtime allotted, it will be the student's responsibility to finish the assignment and turn it in by the due day.

Class Policies:

Google Meets Guidelines

- #1 Rule - RESPECT that learning is happening here. Be kind and polite!
- Try to find a place in your house that will not have a lot of background distractions for when you are talking. This will help our online classroom discussions go more smoothly & quickly, but preferably, not your bedroom.
- Be on time for meetings; the first 5-10 minutes are yours to catch up with one another, but then everyone must put their microphone on mute, and you will be called on (like we do in the classroom). Your microphone should be red.
- please remember that you are in class when we are on Google meets. We shouldn't see/hear you eating or doing other things in the background.
- If you would like to ask a question or share something, type your name in the "chat" area, and I will go in order of the names. *Click anywhere on your screen to pull up menu bars. You should see the chat button in the upper right hand corner.
- let other classmates have a turn before typing your name in again. You may type a comment if you have a question about what the teacher or a classmate is saying. You can also physically raise your hand for me to see.
- Once you are done talking, click on your pin so we can see the next person.
- Stick to the topic/subject we are discussing. Please do not have side conversations in the chat box. Do not repeat the same thing over and over. Think about what you're going to type/say; if it will distract the teacher or others, do not say it. Try to contribute to the conversation in a positive way.
- If you have technical problems during Google Meets, send me a message on Remind or have your parents email me. Please try to get back into the meeting if you are kicked out.
- If you have to step away from the camera temporarily, please type in "BRB" (be right back) in the chat box.
- "Google Meets" keyboard shortcuts: CTRL + e (turns camera on and off) CTRL + D (mute or unmute mic)

Homework policy:

Homework in an Advanced Placement class is designed to support AP students in content knowledge and preparation for class. Students will be viewing the daily videos in AP Classroom and other content videos that will be loaded into EdPuzzle via Google Classroom. There will be questions students will need answer during or after viewing these videos. It is expected that students complete homework by the date/time assigned since quizzes are timed and may be based on homework previously assigned. Also, it is the expectation that any assignments not completed during classtime will be finished during homework time.

MAKE-UP WORK POLICY:

All students are provided an opportunity to make up missed assignments, regardless of the reason for the absences. it is the student and parent's responsibility to make arrangements and/or complete all work within three school days of the student's return to school. Students will present the make-up work to the teacher for grading. Grading for the make-up work should be shared with the student within a reasonable period, i.e. 3-5 days. It is the parent and student's responsibility, as appropriate, to initiate the make-up work for missed assignments, tests, and class work. Students must assume responsibility for obtaining the required information and making whatever arrangements are necessary with the teacher. Parents should assist their child with requests for make-up work and other missed assignments and tests.

Students may arrange times with the teacher for making up work for the mutual convenience of student and teacher. Make-up of tests/quizzes should be done before or after school except otherwise arranged by the teacher. Teachers may assign different work or a different test than that which was originally assigned to other students. It is critical that parents remain involved in this process to ensure academic success for the student. Long-term assignments with preset dates are due on the assigned dates, regardless of a student's previous absence.

Parent-Teacher Conferences:

Parents can contact the student's counselor to schedule a parent-teacher conference.

Infinite Campus Access:

Parents can access their student's grades and attendance online via Infinite Campus Parent Portal. Please see the parent liaison, Mr. Clifton at extension 503137 to obtain their username and password.

Grade Reporting:

Progress reports are issued every four and one-half weeks within each nine week grading period. Report cards are issued every eighteen weeks at the high school level. Report card grades will include both letter and numeric grades for all students.

Progress Report Dates:

Semester One:	September 3	October 13	November 16	January 6

ACADEMIC INTEGRITY

Students are expected to submit work for evaluation that has been completed solely by that student, unless group assignments have been so designated. Academic integrity is expected at all times. If a student is found cheating on a graded assignment, the student will not receive credit for that assignment and will face possible disciplinary action. Cheating and plagiarism are considered very serious academic offenses. Any student who plagiarizes or cheats on an assignment and/or test should be referred to the administrator.
