Departmental Updates

CURRICULUM, INSTRUCTION & ASSESSMENT - The 2018-2019 school year marked the beginning of Clayton County's partnership with the National Math and Science Initiative (NMSI). NMSI works to expand access to challenging coursework and improve student achievement through the provision of targeted instructional and financial support to Advanced Placement (AP) STEM courses (i.e. AP English, AP Mathematics, and AP Science courses). To accomplish this goal, NMSI provides professional development opportunities for teachers, tutorial opportunities for students, instructional resources and materials, and financial incentives for progress and achievement. The Advanced Learning Department is pleased to share that Clayton County Public Schools experienced gains in **1)** the percentage of students earning qualifying scores, **2)** the percentage of students earning qualifying scores by 7 of 10 NMSI high schools and **3)** an increase in the total number of students earning qualifying scores. In addition, the Advanced Learning Department is excited to announce that 146 students received financial rewards as a result of earning qualifying scores on their AP English, AP Math, or AP Science exams. In the second year of partnership with the National Math + Science Initiative, CCPS will add North Clayton High School as the final high school to the list participating schools. As a result, all high schools in the district participate in the NMSI partnership.

DIVISION OF TECHNOLOGY - CCPS educators are participating in online Mimio Certifications programs which impart knowledge on how to use Boxlight tools at the educator and expert level, to support the CCPS instructional priorities and high impact practices. We are pleased to announce that all of the district's 66 schools have at least one certified Mimio Educator on staff. At the time of publication, Sequoyah Middle leads the way with 20 Mimio certified teachers. In addition, Mount Zion Primary, Smith Elementary, and Huie Elementary have 18 certified Mimio Educators, followed closely by a number of schools that have reached a total of 17. Click [HERE](#) for a complete list of the 665 CCPS MimioStudio Educators, arranged by school. View [THIS VIDEO](#) to learn more about the MimioStudio Certification process.

SAFETY & SECURITY - Clayton County Public Schools is in the process of piloting the Raptor Technologies Emergency Management System which is an Active Shooter and Visitor/Volunteer Management platform. This management system provides teachers and administrators the ability to instantly access class rosters via mobile devices in order to account for their students and seamlessly share data with incident managers and administrators during a crisis. The system also provides quick access to incident-specific action plans, facility maps, and emergency operating procedures as well as streamlines parent/student reunification.
