Borrow a copy of the current SHS Literary Criticism list from the SHS Media Center or you can print a copy from the SHS Media Center Web Page. The Gale Literary Index tells you what reference materials published by Gale contain information about the author you are researching or the title of a specific book. The SHS Literary Criticism list contains most (not all) the literary reference books in the SHS Media Center, both those published by Gale and those from other publishers, which will not be found in the Gale Literary Index. The non-Gale publications have an \* before the title on the Literary Criticism List. It is best to search both the Gale Literary Index and the starred reference books on the SHS Literary Criticism list, as well as any reference books not on the list.
