

COMMERCIAL PROJECT

How to Download your video from Google drive

1. Log into your Google Drive on the computer in front of you
2. Locate your cut paper animation video and click on it
3. In the top right corner you will see three vertical dots...click it and choose download.
4. Download your video and move it to your flash drive.

How To Edit Using WonderShare Video Editor

To Import A Video:

1. Open WonderShare Video Editor (ALSO CALLED FILMORA)
2. Click On Full Feature Mode
3. Click on the 'Import' down arrow to locate your video
4. Double click on the video
5. Click on the video and drag it into the editing bar under 'Video'

To Import A Picture: Follow steps 1-5, except click on picture files instead of video files, and drag under, 'PIP1' or 'PIP2'

To Import Audio: Follow steps 1-5, except click on audio/music files instead on video files, and drag under 'Sound'

To Import Music: Follow steps 1-5, except click on audio/music files instead on video files, and drag under 'Music'

To Use A Transition:

You should have WonderShare/Filmora open at this point

1. Click on the tab labeled 'Transition'
2. Click and drag the transition you want after a photo or video, and preview it by pressing the play button

To Add An Effect or Filter:

1. You should have WonderShare opened by this point
2. Click on the **tab** labeled 'Effect'
3. Click and drag the effect under the video or picture desired under **the editing bar** labeled 'Effect'.

To Add Text:

1. You should have WonderShare opened by this point
2. Click on the **tab** labeled 'Text'
3. Click and drag the desired text design under **the editing bar** labeled 'Text'
4. Right click on the text square in the bar to edit the text... You can edit the font, color, size and animation for the text, or leave it as is

To Make A Photo, Text, Effect, Video, Transition, Sound Or Music File Shorter or Longer:

1. You should have WonderShare opened by this point
2. Content should already be in the editing bar
3. To make something longer; click on the photo, text, video, transition, etc; and go to the end of the file – proceed to click and drag the arrows on the file outwards until the desired length
4. To make something shorter; click on the photo, video, transition, etc; and go to the end of the file – proceed to click and drag the arrows on the file inwards until the desired shortened length
5. **To Save As A Movie:**
 1. Click Export
 2. Name it (your name – cut paper animation)
 3. Save to your flash drive or my videos on the computer
 4. Click Export Again
 5. Find your file on the flash drive or computer and copy it.
 6. Open Video Files - find the folder titles cut paper animation videos 201617 then the Quarter of Film you are enrolled in, then drag it there.

This is HOMEWORK: FIND AN APPROPRIATE VIDEO CLIP from YouTube or some other video compilation source. You will need to download a good youtube downloader from the internet. You can find one by doing a google search for free youtube downloaders. Some suggestions:

1. for windows or mac: http://download.cnet.com/Free-YouTube-Downloader/3000-2071_4-75219434.html
2. <http://features.en.softonic.com/top-5-youtube-downloaders>

****hint**** if you save this document on your flashdrive these links will show when you open this document at home as working hyperlinks. (which means it will open the website if you click the blue words)

Your final presentation should be in the format of a film made in wondershare video editor and exported as a movie to THE CORRECT FOLDER IN VIDEO FILES
