

DELAWARE HEALTH AND SOCIAL SERVICES Division of Public Health Immunization Program

School Vaccination Medical Exemption Form

The School Vaccination Medical Exemption Form is the official Division of Public Health (DPH) document to be completed by a currently licensed physician, advanced practice nurse, nurse practitioner, or physician's assistant to exempt a child from childcare or school immunization requirements. The clinician certifies that due to the child's health or medical condition, the child may be adversely affected on a temporary or permanent basis by one or more of the required vaccines. The signed medical exemption statement verifying true contraindications/precautions is submitted to and accepted by Delaware schools, child care programs, and other agencies that require proof of immunization. The signed form does not require further approval from the Delaware Division of Public Health.

For exemption of medical conditions not listed on this form, the clinician must submit the Supplemental School Vaccine Medical Exemption Form to DPH for approval.

A *contraindication* is a condition in a recipient that increases the risk for a serious adverse reaction. A vaccine will not be administered when a contraindication exists.

A **precaution** is a condition in a recipient that might increase the risk for a serious adverse reaction or compromise the ability of the vaccine to produce immunity. Under normal conditions, vaccinations should be deferred when a precaution is present. Indicate if an exemption is permanent or temporary.

Vaccine medical contraindications are determined by the Advisory Committee on Immunization Practices (ACIP).

Please return the form to:

School: _____

Address: _____

Fax Number:	

Please indicate whether the exemption is: \Box **<u>permanent</u>** or \Box **<u>temporary</u>**

For *temporary* exemption, list the date the exemption ends: ____/___/____

Vaccine	Check if Applicable		Contraindications/Precautions	
DTaP	Permanent	Temporary	Contraindications	
			• Severe allergic reaction (e.g., anaphylaxis) after a previous dose or to a vaccine component	
			Encephalopathy within seven days after receipt of previous dose of DTP or DTaP	
			Precautions	
			 Progressive neurologic disorder, including infantile, spasms, uncontrolled epilepsy, progressive encephalopathy: defer DTaP until neurologic status clarified and stabilized 	
			• Fever greater than 104.9°F (40.5°C) within 48 hours after vaccination of previous dose of DTP/DTaP	
			Guillain-Barre syndrome within 6 weeks after a previous dose of tetanus toxoid-containing vaccine	
			Hypotonic-hyporesponsive episodes within 48 hours after vaccination of previous dose of DTP or DTaP	
			Seizure within 72 hours after vaccination of previous dose of DTP or DTaP	
			 Persistent, inconsolable crying lasting three hours or more 48 hours after receiving a previous dose of DTP or DTaP 	
			Moderate or severe acute illness with or without fever	
			 History of arthus-type hypersensitivity reactions after a previous dose of tetanus or diphtheria toxoid-containing upgeing: defer upgeingtion until at least 40 upger hour alonged piece the least tetanus toxoid containing 	
Tdap			vaccine; defer vaccination until at least 10 years have elapsed since the last tetanus-toxoid containing vaccine Contraindications	
			Severe allergic reaction (e.g., anaphylaxis) after a previous dose or to a vaccine component	
			Encephalopathy within seven days after receipt of previous dose of DTP or DTaP	
			Precautions	
			 Progressive neurologic disorder, uncontrolled seizures or progressive encephalopathy; defer vaccination until treatment regimen is established and condition stabilized. 	
			Moderate or severe acute illness with or without fever	
			Guillain-Barre syndrome within 6 weeks after a previous dose of tetanus toxoid-containing vaccine	
			 History of arthus-type hypersensitivity reactions after a previous dose of tetanus or diphtheria toxoid-containing vaccine; defer vaccination until at least 10 years have elapsed since the last tetanus-toxoid containing vaccine 	
DT/Td			Contraindications	
			• Severe allergic reaction (e.g., anaphylaxis) after a previous dose or to a vaccine component	
			Precautions	
			Guillain-Barre syndrome within 6 weeks after a previous dose of tetanus toxoid-containing vaccine	
			Moderate or severe acute illness with or without fever	
			 History of arthus-type hypersensitivity reactions after a previous dose of tetanus or diphtheria toxoid-containing vaccine; defer vaccination until at least 10 years have elapsed since the last tetanus-toxoid containing vaccine 	
Varicella			Contraindications	
			• Severe allergic reaction (e.g., anaphylaxis) after a previous dose or to a vaccine component	
			 Known severe immunodeficiency (e.g., from hematologic and solid tumors, receipt of chemotherapy, primary or acquired immunodeficiency, long-term immunosuppressive therapy, or patients with HIV infection who are severely immunocompromised) 	
			Pregnancy	
			Precautions	
			Moderate or severe acute illness with or without fever	
			Recent (within 11 months) receipt of antibody-containing blood product (specific interval depends on product)	
			 Receipt of specific antivirals (i.e., acyclovir, famciclovir, or valacyclovir) 24 hours before vaccination; if possible, delay administration of these antiviral drugs for 14 days after vaccination. 	
			<u>Documented</u> past history of Varicella disease.

Immunization Program

IPV			Contraindications		
			• Severe allergic reaction (e.g., anaphylaxis) after a previous dose or to a vaccine component		
			Precautions		
			Pregnancy		
			Moderate or severe acute illness with or without fever		
Hepatitis B			Contraindications		
			Severe allergic reaction (e.g., anaphylaxis) after a previous dose or to a vaccine component		
			Precautions		
			 Infant weighing <2,000 grams if mother has documented hepatitis B surface antigen (HbsAg)-negative at the time of the infant's birth 		
			Moderate or severe acute illness with or without fever		
MMR			Contraindications		
			Severe allergic reaction (e.g., anaphylaxis) after a previous dose or to a vaccine component		
			Pregnancy		
			 Known severe immunodeficiency (e.g., hematologic and solid tumors, or severely symptomatic infection) 		
			Precautions		
			Recent (11 months) receipt of antibody-containing blood product (specific interval depends on product)		
			History of thrombocytopenia or thrombocytopenic purpura		
			Moderate or severe acute illness with or without fever		
Meningococcal			Contraindications		
			• Severe allergic reaction (e.g., anaphylaxis) after a previous dose or to a vaccine component		
			Precautions		
			Moderate or severe acute illness with or without fever		
			 Receipt of specific antivirals (acyclovir, famciclovir, or valacyclovir) 24 hours before vaccination; if possible, delay administration of these antiviral drugs for 14 days after vaccination. 		
Haemophilus			Contraindications		
influenza type b			• Severe allergic reaction (e.g., anaphylaxis) after a previous dose or to a vaccine component		
(Hib)			Age younger than 6 weeks		
			Moderate or severe acute illness with or without fever		
Pneumococcal			Contraindications		
Disease			 Severe allergic reaction (e.g., anaphylaxis) after a previous dose of PCV7 or PCV13 or to a vaccine component, including to any vaccine containing diphtheria toxoid 		
			• For PPSV23, severe allergic reaction (e.g., anaphylaxis) after a previous dose or to a vaccine component		
			Precautions		
			Moderate or severe acute illness with or without fever		
n awara that in	the event that t	the Division	of Public Health (DPH) declares an outbreak of a vaccine preventable disease, or if in		

I am aware that in the event that the Division of Public Health (DPH) declares an outbreak of a vaccine preventable disease, or if in the estimation of DPH, my child has had, or is at risk of having an exposure to a vaccine preventable disease, my child shall be temporarily excluded from attendance at the childcare and/or school until the risk period ends, which may be three weeks or longer. My child shall be authorized to return to school once approved by DPH.
