\$400	\$400	\$400	\$400	\$400
\$500	\$500	\$500	\$500	\$500

What is a neurotransmitter that influences movement, learning, attention, and emotion?

What mimics  
neurotransmitters at the  
synapse?

What receives messages and  
conduct impulses toward the  
body cell?

The amount of time it takes  
for neurotransmitter  
molecules to cross the  
synaptic gap.

What is the best understood  
neurotransmitter?

What two things make up the nervous system?

The two divisions of the  
Peripheral Nervous System.

When neurons communicate with other neurons, it forms our body's primary information system known as the what?.

Which nervous system  
controls the glands and the  
muscles of our internal  
organs?

These are the three types of  
neurons that information  
travels through.

This is also known as the  
Little Brain.

This monitors blood chemistry and takes orders from other part of the brain.

This is the brain's basement  
and the innermost region.

This is a finger shaped network of neurons, that extend from the spinal cord right up to the thalamus.

This area of the brain is responsible for language comprehension..

Visual Information is received  
in this lobe.

This area is at the front of the parietal lobes and registers and processes body sensations.

This is our body's ultimate control and information processing center. It is an intricate covering of interconnected neural cells.

This area is parallel to the  
Motor Cortex.

This is the term for impaired use of language when there has been damage to any one of several cortical areas.

This is a pea-sized structure located in the base of the brain and is controlled by the hypothalamus.

This is released by the  
Endocrine System.

This is how hormones travel.

This is a collection of specialized cells, located in the lower central part of the brain and is the primary link between the Endocrine and Nervous System.

These are two triangular glands, one on top of kidney.

# What is Dopamine?

# What is Agonists?

# What are dendrites?

What is  $1/10,000^{\text{th}}$  of a second?

What is Acetylcholine (ACH)?

What is the brain and spinal cord?

What are the Automatic and Somatic systems?

# What is the Nervous System?

# What is the Autonomic Nervous System?

# What are Sensory Neurons, Motor Neurons and Interneurons?

# What is the Cerebellum?

What is the Hypothalamus?

# What is the Brainstem?

# What is Reticular Formation?

What is Wernicke's area?

# What is the Occipital Lobe?

What is the Sensory Cortex?

# What is the Cerebral Cortex?

What is the Sensory Cortex?

# What is Aphasia?

# What is the Pituitary Gland?

What are Hormones?

What is the Bloodstream?

What is the Hypothalamus?

What are the Adrenal Glands?

# JEOPARDY! Slide Show

## Setup

- The font for the question & answer slides is “Enchanted;” a copy of this font is located in the “REAL Jeopardy Template” folder or included in the “jeopardy\_pc.zip” file. (This font will need to be installed in the C:/WINDOWS/FONTS folder of the computer running the show.) In order to keep all of the sounds and fonts together, copy the entire “REAL Jeopardy Template” folder or “jeopardy\_pc.zip” file.
- To change the categories:
  - 1. Go to the “Edit” menu and choose “Replace...”
  - 2. In the Find box, type CATEGORY X (X being 1 through 5) (all caps).
  - 3. In the Replace box, type the category in all caps (for example, PRESIDENTS).
  - 4. Click Replace All...
- To change the dollar values (for example to create Double Jeopardy):
  - 1. Go to the “Edit” menu and choose “Replace...”
  - 2. In the Find box, type \$X (the dollar value you want to change).
  - 3. In the Replace box, type the new dollar value (with \$).
  - 4. Click Replace All...

# JEOPARDY! Slide Show

## Setup continued

- To set up the Daily Double:
  - 1. Choose which dollar value(s) to set as Daily Double (normally, Jeopardy has one Daily Double, and Double Jeopardy has two).
  - 2. Go to the Game Board slide (Slide 8), right click once on the dollar value for the appropriate question, choose Hyperlink, and choose Edit Hyperlink.
  - 3. In the Edit Hyperlink window, go to “Named location in file” and click “Browse...”
  - 4. In the Hyperlink to Slide window, scroll down to the appropriate slide; Slides 64 and 65 are regular Daily Doubles, Slide 66 is an Audio Daily Double, Slide 67 is a Video Daily Double. Click “OK.”
  - 5. Go to the Daily Double slide just linked to, and right click once on the answer arrow at the bottom right, choose Hyperlink, and choose Edit Hyperlink.
  - 6. In the Action Settings window, make sure the Hyperlink button (to the left of “Hyperlink”) is selected, and in the select box underneath choose “Slide...”
  - 7. In the Hyperlink to Slide window, scroll down to the appropriate question slide (the original slide number of the question).
- NOTE: Using the Audio and Video Daily Doubles requires adding audio or video/picture clips to the question slides. If you are not familiar with doing this in PowerPoint, do not use those Daily Doubles.

# Running the JEOPARDY!

## Slide Show

- On the game board with the categories on top (Slide 8), click on the desired dollar value. (The first game board is used only to blink in the dollar values like the show.)
- The question slide will pop up; the slides are timed with an eight-second timer. At the end of the timer, an alarm will chime.
- ICONS:
  - ? Go to the answer screen.
  - **House** Go back to the game board.
  - **Right Arrow** (on Daily Doubles) Go to the question screen.
  - **Right Arrow w/ Bar** (on Game Board) Go to the Final Jeopardy category.
  - **Turned-up Arrow** Reload question screen after incorrect guess.
  - \$ Go to the Scoreboard slide.
  - **Left Arrow** (on Scoreboard) Go to the previous slide.
