\$500	\$500	\$500	\$500	\$500

Which of the following equations has 3 as a solution?

a)  $4x = 30$

b)  $w + 4 = 12$

c)  $x / 3 = 1$

d)  $12 - x = 9$

Which of the following inequalities is true if  $x = 6$ .

a)  $4x > 20$

b)  $x + 3 < 9$

c)  $x / 3 < 1$

d)  $12 - x > 9$

Out of the following set  
 $\{0, 1, 2, 3, 4\}$   
What numbers make the  
following inequality true?  
 $2x \leq 6$

Out of the following set

$\{ 0, 2, 4, 6 \}$

What numbers make the following  
inequality true?

$$x + 2 < 6$$

Out of the following set  
 $\{0, 1, 2, 3, 4\}$   
What numbers make the  
following inequality true?  
$$2x + 1 \geq 7$$

$$x + 14 = 29$$

$$x - 25.3 = 32$$

$$6x > 15$$

$$5x = 96$$

$$\frac{x}{7} = 8$$

Graph the inequality.  $x \geq 16$

Graph the solution for the  
following inequality.

$$x - 8 < 20$$

Graph the inequality. You have to be 6 or younger to enter the ball pit.

Graph the inequality. You have to be 25 or older to rent a car.

Write the equation for this graph:

Scott buys bottles of water at \$2.50 each and a large pizza at \$13. If the total cost is  $y$ , create an equation if Scott buys  $x$  bottles of water.

A baseball bat and a baseballs comes to a total of \$145.83. The bat costs \$136.26. Which equation would you use to find the cost of one baseball?

Write the inequality. You need to earn  
at least \$50

Your brother's 5 dollars plus your money will give you less than \$25 to spend on your mom's birthday present.

Each pizza is \$5. You can spend  
no more than \$45 on pizza.

Based on the table, what is the equation?

x	y
0	0
1	3
2	6
3	
4	

Based on the table, what is the equation?

x	y
0	3
1	4
2	5
3	
4	

Fill in the missing values using the equation  $4x + 2 = y$ :

x	y
0	
1	
2	
3	
4	

What is the equation for the following table?

x	y
0	4
1	5
2	6
3	
4	

What is the equation for the following table?

x	y
0	0
1	5
2	10
3	
4	

## Does it Work? - \$100

c)  $x / 3 = 1$

d)  $12 - x = 9$

## Does it Work? - \$200

$$\text{a.) } 4x > 20$$

**Does it Work? - \$300**

0, 1, 2, 3

**Does it Work? - \$400**

0, 2

**Does it Work? - \$500**

3, 4

Solving - \$100

$$x = 15$$

Solving - \$200

$$x = 57.3$$

Solving - \$300

$$x = 2.5$$

Solving- \$400

$$x = 19.2$$

Solving- \$500

$$x = 56$$

FINAL  
JEOPARDY!

# Money

## Savings Account

Name	Current Amount	Amount Saved Each Week
Amy	\$100	\$7
Becky	\$85	\$10
Caroline	\$94	\$8
Dan	\$110	\$7

Will anyone have \$200 or more in 12 weeks? If so, who?

# Money

Amy –  $100 + 7(12) = \$184$  (NOPE)

Becky -  $85 + 10(12) = \$205$  (YEP)

Caroline –  $94 + 8(12) = \$190$  (NOPE)

Dan –  $110 + 7(12) = \$194$  (NOPE)

Only Becky will have 200 or more.

END OF GAME

Daily Doubles and  
usage notes follow...

# JEOPARDY! Slide Show Notes

- The font for the question & answer slides is “Enchanted;” a copy of this font is located in the “REAL Jeopardy Template” folder. (This font will need to be installed in the C:/WINDOWS/FONTS folder of the computer running the show.) In order to keep all of the sounds and fonts together, copy the entire “REAL Jeopardy Template” folder.
- To change the categories:
  - 1. Go to “Edit” and “Replace...”
  - 2. In the Find box, type CATEGORY 1 (all caps)
  - 3. In the Replace box, type the category in all caps (for example, PRESIDENTS)
  - 4. Click Replace All...
- To use the Daily Double:
  - 1. Choose which dollar values to set as Daily Double
  - 2. Link that dollar value to one of the DD slides
  - 3. Link the arrow on the DD slide to the correct question slide (so dollar/category match)

# Running the JEOPARDY!

## Slide Show

- On the game board with the categories on top, click on the desired dollar value. (The first game board is used only to blink in the dollar values like the show.)
- ICONS:
  - ? Go to the answer screen.
  - House Go back to the game board.
  - Right Arrow (on Daily Doubles) Go to the question screen.
  - Turned-up Arrow Reload question screen after incorrect guess
