

ELA K-2 Summary of Alignment & Usability

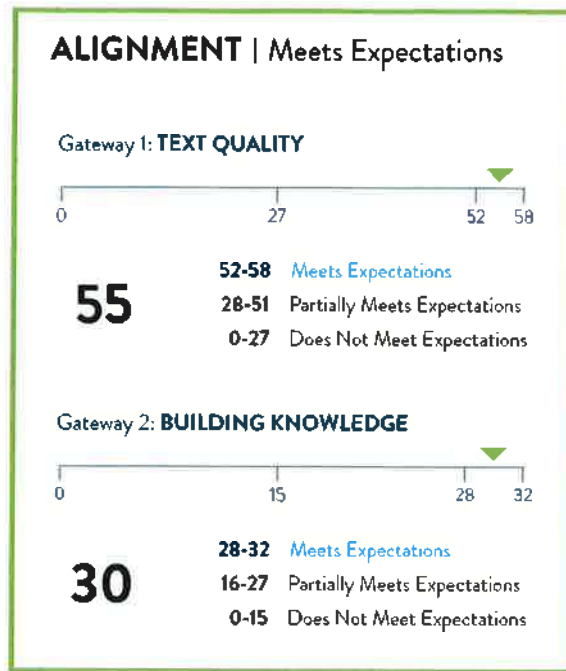

NOTE: This publisher has completed the Instructional Materials Technology Information document which provides enhanced details about this product’s design and usability features. [View the technology information.](#)

The materials for Wonders K-1-2 meet the expectations of alignment, including instruction and practice to develop skills and understanding. The materials include many high quality texts and tasks that support students’ development of literacy skills, although their organization is not consistently focused on increasing students’ comprehension skills from beginning to end of year. The materials are organized to build knowledge of topics and provide opportunities for students to demonstrate integrated skills. Instruction for foundational skills includes the core components necessary. While many implementation supports are available, the teacher may need to do extra work to assure lessons are implemented with fidelity.
