"Spring has sprung in Lahaina and we have started an end-of-year event. Last week, the Lahaina Schools Student Showcase provided an opportunity for the community to gather around young leaders and hear their visions for the future. I was inspired as my students presented their TED-Ed Student Talks about the Lahaina Renaissance and high school students spoke truth to power. This truly represented IMUA and PONO. ❤️" - Ms. Penn

TRAUMA-FOCUSED COGNITIVE BEHAVIORAL THERAPY (TF-CBT) FOR WILDFIRE SURVIVORS

Child &
Adolescent
Mental
Health
Division

Do you know a child or teen deeply impacted
by the wildfires?

What is Trauma Focused-Cognitive Behavioral Therapy?

Trauma-Focused Cognitive Behavioral Therapy (TF-CBT) is an evidence-based, short-term intervention for addressing behavioral health issues related to traumatic events relating to disasters and grief.

How can it help children and teens?

TF-CBT helps children and teens manage and reduce negative emotions and behaviors and offers skills to help parents support their children and teens.

Where do I start?

Scan the QR code or use this [link](#) to complete the online form to connect with a Hawai'i provider trained in this evidence-based approach.
