## Marie Curie: Obsessive Genius

After reading *Marie Curie: Obsessive Genius*, you are going to create a “one-pager” in which you draw/represent major ideas from the novel. The One-Pager should include the following:

- the title of the novel
- a short summary of the book.
- choose 2 scientists and discuss their contribution to science.
- a **personal response** to the novel (at least three sentences) You may want to include your thoughts on the ethical use of scientific discoveries.
- at least **two** pictures of major people/things/events from the novel
- at least **five quotes** that are important to the book.
- provide a time line of events that led to the discovery of radium.

You can use markers, colored pencils, and any other items to make your one-pager stand out from the crowd. Since this is part of your final assessment for the novel, you should be creative and do your best.
