

FIRST GRADE CURRICULUM

WHAT MATH SKILL NEEDS MORE PRACTICE?

FLUENTLY FIND ANSWERS TO BASIC ADDITION AND SUBTRACTION FACTS WITHIN 20.

WHAT DOES MY CHILD NEED TO DO?

Check that your child can quickly and accurately find answers to basic addition and subtraction facts.

WHAT IS FLUENCY?

Math fluency with addition and subtraction facts involves automaticity to accurately find the answer efficiently. Automaticity means you have performed the math operation so frequently that you automatically know the answer. For example, a child is fluent in addition within 5 numbers if she is asked to add $1 + 3$ and she immediately blurts out 4.
