

Georgia Milestones End-of-Grade/End-of-Course Assessments Testing Brief for 2014–2015

The Georgia Milestones Assessment System is a comprehensive assessment program spanning grades 3 through high school. It is designed to provide information about how well students are mastering the state-adopted content standards in the core content areas of language arts, mathematics, science, and social studies. The Georgia Milestones Assessment was first given during the 2014 2015 school year.

Students in grade 3 through 8 take an end-of-grade (EOG) assessment in the content areas of languages arts, mathematics, science and social studies in April.

High school students take an end-of-course (EOC) assessment for each of the eight courses designated by the State Board of Education:

- Ninth Grade Literature and Composition
- American Literature and Composition
- Coordinate Algebra
- Analytic Geometry
- Physical Science
- Biology
- United States History
- Economics/Business/Free Enterprise

Middle school students who are enrolled in one or more of these courses will also take the end-of-course assessment. The end-of-course assessments are administered at the completion of the course, regardless of the grade level. Beginning with the 2015-2016 school year, these assessments serve as the final exam for the course and count as 20% of the student's final grade.

Features of the Georgia Milestone Assessment System include:

- open-ended (constructed-response) items in language arts and mathematics (all grades and courses)
- a writing component (in response to passages read by students) at every grade level and course within the language arts assessment
- norm-referenced items in all content areas and courses, to complement the criterion-referenced information and to provide a national comparison
