II. OPEN DISCUSSION

- Escambia High School NFA-ACE Flight Academy – Superintendent

Students enrolled in the NFA-ACE Flight Academy at Escambia High School, addressed the School Board regarding their experiences in this program.

- Woodham/West Florida Signage Update – Superintendent

*In August 2019, West Florida High School of Advanced Technology would be moved from its current location on Longleaf Drive to Burgess Road, at the former location of Woodham High School/Woodham Middle School.* Project Manager, Mr. Keith Wasdin, provided the following update:

Memorial Exhibit - A memorial exhibit showcasing Woodham High School artifacts would be displayed in a prominent location inside the school. The exhibit would provide a brief biography on Dr. William J. Woodham and the history of Woodham High School, including a timeline of major events spanning from the school's opening in 1965 to its closing in 2007.

Monument - The 'Home of the Mighty Titans' marker created by the Woodham High School Class of 1981 would be relocated to the Marlin Bullock football stadium.

Campus Signage – Several options had been considered, but the Superintendent's recommendation was for the main campus sign to read 'West Florida High School of Advanced Technology' and beneath that, 'William J. Woodham High School 1965-2007'. The objective with this particular wording, was to envision

the campus as the new home of West Florida High School, while honoring the past home of Woodham High School. There were no objections to this recommendation.

Ms. Hansen asked that a special grand opening be organized for former Woodham High School faculty and students to see firsthand, that much effort was taken to ensure the Woodham High School spirit was still present.

The following individuals addressed the School Board regarding their desire to see Woodham High School honored through the new campus signage: Swinson Shipman and Ava Rich.
