Mrs. Hightower provided an update from the December 7, 2020 Planning Board workshop during which DPZ CoDesign, the urban planning firm hired to create a master plan for the OLF-8 property in Beulah, presented four potential layouts for the area: the commerce park plan, the market plan, the greenway plan, and the village plan. Mrs. Hightower confirmed that each of the four potential layouts included space for a new school. The Planning Board would vote in February 2021 as to which plan they would recommend to the Board of County Commissioners. [Summary document provided to School Board Members] Representatives from Idgroup gave a brief update on the School District’s transformation initiative. The focus for January 2021 would be on communication with internal stakeholders and the community. Idgroup recommended communicating this initiative to internal stakeholders by way of video and to the community by way of a public briefing.
- Process for Returning Remote Students to Traditional Learning Platform – *Superintendent*
Mr. Steve Marcanio, Assistant Superintendent for Curriculum and Instruction, advised that the School District would be reaching out to parents/guardians of students enrolled in remote learning, who are failing to make adequate progress, and informing them that the students should return to traditional face-to-face school. Criteria utilized to determine “not making adequate academic progress” includes grades, assessments, attendance, and for high school students, GPA and graduation requirements. Parents who choose not to return their students to face-to-face learning are required to sign and return the letter to the school district. In signing the letter, parents also agree to participate in a required Child Study Team meeting to discuss the academic risks associated with remaining in a remote learning model, as well as appropriate interventions available to help students. Data shows that 82% of elementary, 89% of middle, and 70% of high school remote learners are failing to make adequate progress. Florida Department of Education Commissioner Richard Corcoran issued an executive order on November 30, 2020, requiring school districts to communicate with the parents or guardians of any student failing to make adequate academic progress as defined by the state.
