Facts and Questions about Band and Chorus

- **Why Music?** Research findings suggest, children who are in music programs see significant benefits in reading, math, and logical-sequential thinking. In addition, high school students who remain in a quality music program also average 20 to 40 points higher on the SAT on both the math and verbal portions. Music majors have the highest rate of acceptance to medical schools. Annually, National Merit Scholars are involved in music programs more than any other single activity in school. *Other added benefits are a development of cooperation, self-expression, responsibility, discipline, patience, self-esteem, listening skills, and a potential life-long enjoyment of music.*
- **You will have a chance to join the largest groups on campus.** You will not want to miss out of these groups! **YOU CAN DO BOTH!**
- **Band and Chorus are regular daily connections classes that will meet for the entire year.** You will still have a chance to experience other connections classes. **You do not have to choose one over the other- these can both be taken all year.**
