The New Maurice J. Moyer Academy

Application for Charter Modification (Major)

Date Submitted: December 19, 2013

Table of Contents

Section A: Core Questions	2
Section B: Enrollment Change	6
Resources	9
Appendix A: Funding Summaries & Annual Budget	s10

Section A: Core Questions

1. What modification does the school's Board of Directors wish to make to the term(s) of the charter? Identify the page number(s) on which the term(s) is/are stated in the currently approved charter. If the term(s) of the charter the school wishes to modify is/are conditions placed on the charter by the Secretary of Education and members of the State Board of Education, state the condition(s) and the date(s) on which the condition(s) was/were placed on the school's charter.

The Board of Directors at the New Maurice J. Moyer Academy is seeking to reduce the enrollment targets through the fourth year of the approved charter. In the original charter, the page that addresses enrollment targets is page 2. In the approved charter the enrollment targets for years 1-4 are 365, 385, 455, and 600 students. Please note that the original charter was approved for a start in August 2010. With this said, under the original charter, the current enrollment for SY 2013-2014 is 455 students. The proposed enrollment targets are in the table below.

Year 1 SY 12-13	Year 2 SY 13-14	Year 3 SY 14-15	Year 4 SY 15-16	
30	35	40	45	
30	32	40	45	
30	32	40	45	
30	32	40	45	
30	32	40	45	
30	32	33	40	
20	30	32	40	
200	225	265	305	
	30 30 30 30 30 30 30 30 20	SY 12-13 SY 13-14 30 35 30 32 30 32 30 32 30 32 30 32 30 32 30 32 30 32 30 32 30 32 30 32 30 32	SY 12-13 SY 13-14 SY 14-15 30 35 40 30 32 40 30 32 40 30 32 40 30 32 40 30 32 40 30 32 33 20 30 32	

2. What is the effective date of the proposed modification? (Please note: if this is a request for an enrollment expansion of greater than 15%, the applicant must provide an impact analysis pursuant to 14 Del. Code Chapter 5 §511(b)3 as an Attachment See Section B Question 3 in this application.)

The Board of Directors at the New Maurice J. Moyer Academy is requesting that the

modification be pre-dated for August 2013. In December 2012, the Board of Directors submitted a charter modification request to DE DOE. Subsequently, DE DOE denied the modification. DE DOE denied the modification on the grounds of financial instability. The perception of financial instability was caused mainly by the uncertainty related to the future of the Moyer facility. With the Board of Directors purchasing the facility in September of 2013, the uncertainty related to the facility has been addressed.

 The authorizer will review your most recent Performance Review Reports as part of your application. Discuss the school's academic performance, its compliance with the terms of its charter, and its financial viability as measured by the Performance Framework.

During SY 2012-2013, the students of the New Maurice J. Moyer Academy made great academic growth in both ELA and mathematics. When comparing DCAS scores from the Spring 2012 to Spring 2013, our students improved by 17 percentage points in both math and ELA. In addition, our special education students improved by 15 percentage points in math and 25 percentage points in reading. While we accept the fact that we must continue to improve, we are proud of our academic growth from last school year.

Currently, The New Maurice J. Moyer Academy is in violation of its charter in two areas including educational plan and enrollment. During the 2012-2013 school year, we submitted a charter modification to change our educational plan and enrollment targets. Both modifications were denied. Aside from those two issues, we have fulfilled the terms of our charter.

The current Financial Performance Framework (SY 2012-2013), that we received from DE DOE, is in the process of being revised. According to our auditor, the revision will result in The New Maurice J. Moyer Academy earning a rating of Meets Standard for each indicator. There were two major issues that impacted last year's Performance Framework report. First, there was an outstanding balance from the management company (K12) that was settled. The debt was created as a result of services provided to the school prior to the new Board of Director's start date (July 1, 2012). Additionally, before the purchase of the school facility, rent was approximately \$25,000 per month. After the purchase of the building, the monthly mortgage payment is \$16,000. This equates to an annual savings of \$108,000. While this information is not captured in the original Financial Performance Framework, we expect to be rated as Meets Standard in the revised document.

 Describe the rationale for the request(s). Discuss any relevant research-base or evidence that supports this type of request. (Attachments may be provided.)

The Board of Directors is requesting the modification to enrollment projections for two major reasons. The New Maurice J. Moyer Academy is Delaware's largest turnaround school. A major part of our effort is to rebuild the community's confidence in our ability

to provide a world class education. During this period of rebuilding, it is unlikely that we will be able to attract enough students to satisfy current enrollment targets. Additionally, current enrollment targets (in the original charter) were created to ensure our ability to pay the high lease rates. When the charter was initially approved, the monthly lease for the school facility was \$52,000. With the purchase of the building, the mortgage payment has been reduced to \$16,000. The difference in monthly payments equates to an annual savings of \$432,000. Without the additional overhead generated by monthly facility costs, The New Maurice J. Moyer Academy can focus on providing a higher quality education to a smaller population of students.

Based on small school research conducted by Abdulkadirglu et al. (2013), Patricia Wasley et al. (2000), and Bruce Barker (2008), small school environments nurture turnaround efforts more effectively. In small schools, indicators including attendance, school violence, student achievement, and parental support are all enhanced in smaller schools. In the midst of our turnaround initiative, the Board of Directors feels that we can more effectively address the needs of the whole child in a smaller environment.

 Describe how the proposed modification will impact the operation of the school. Include how student achievement, staffing, facilities, and the financial viability of the school may be impacted in the current school year and for the remainder of the school's charter term.

During SY 2012-2013, the student population of The New Maurice J. Moyer Academy consisted of 183 students. During the aforementioned school year, our students demonstrated a tremendous amount of growth in both ELA and mathematics. We attribute much of our success to our staff's ability to provide individualized attention to our students. While a larger population (455-600 students) may have similar student: teacher ratios, smaller school populations enable support staff (principal, asst. principal, guidance counselors, etc) to build more effective relationships with all students. This a critical component of our turnaround efforts.

Currently, our population has 227 students. Over the last two years, The New Maurice J. Moyer Academy has demonstrated slow growth. With an increase of approximately 40 students, our staffing plan has remained relatively constant. With a proposed increase of an additional 80 students over the next 3 years, our staffing plan will slowly increase to meet the instructional and social needs of our students. Our facility will not be impacted by the reduction in our enrollment.

The financial viability of the New Maurice J. Moyer Academy is addressed in question #6 of section A.

 Indicate the projected impact, if any, of the proposed modification on the school's present financial position, and its financial position going forward. If the modification promises to create financial challenges, indicate how those will be remedied.

The initial revenue projection was based upon 225 students, generating 12 teaching positions. Based on our actual enrollment for FY14, which included a special needs population of 38%, our student population has generated 19.25 teaching positions. This additional revenue was used to serve our students by hiring the necessary teachers and paraprofessionals. It also supported the purchase of testing and monitoring software for our students, i.e. Achievement Network.

In year 3, the student enrollment of 265 students will allow the school to maintain its current operations. There will be no significant impact to the current staffing or operating plans. Based on the revenue generated by 265 students, the annual budget will not subject the school to any economic hardships.

Due to the purchase of the facility, the annual budget reflects savings in our monthly lease agreement from \$25,000 to \$16,000, an annual savings of \$108,000. Currently, the facility is valued at an amount that greatly exceeds the purchase price. With this said, there is a great deal of equity in the property.

The additional state & local revenue will be used for repayment towards K12 Management fees. K12 has issued a credit balance for FY13 management fees. This was reflected in the FY13 audit which shows Moyer's financial growth.

The first financial obligation that the New Maurice J. Moyer Academy must address is the repayment of closing costs from the purchase of the building. The budget also permits management fees to be paid to K12, which supports the fact that Moyer is a financially viable institution. The New Maurice J. Moyer Academy's ability to satisfy both its normal obligations and payments to the management company is proof that the school is fiscally responsible with its assets.

The summer pays that were set aside have been increased to reflect the additional new hires in the budget for FY14. These actions have created a more economically viable school with a fully funded contingency budget. For FY 14, we are projecting a surplus for carryover into FY15. We can utilize the surplus if any unforeseen financial issues arise.

Section B Questions: Enrollment Change

1. Discuss your objective in seeking the proposed modification.

Our objective in seeking a modification is to reduce the enrollment targets by approximately 50% (over a 4 year period). As previously discussed, small school research demonstrates the benefits of small schools versus large schools. While our current challenges are not sensitive to the size of the school population, the Board of

Directors of the New Maurice J. Moyer Academy feel that we can meet both the academic and social needs of our students more effectively in a smaller school.

The eventual enrollment target in the approved charter is 600 students. While the capacity of the facility is 600, the facility would be overcrowded at its full capacity. In the proposed modification, the Board of Director's is requesting a modification that maximizes enrollment targets at 305 students. With approximately 150 middle and 150 high school students, we can provide instructional systems to maximize student achievement. Additionally, we can develop wrap around services to meet the social needs of our students. At 600 students, our attempt to provide a high level of wrap around services would prove to be very difficult.

From an organizational perspective, our objective is to be in compliance with our enrollment targets. According to the Organizational Performance Framework from SY 2012-2013, we are out of compliance with enrollment. As the Board of Directors, we are committed to meeting the standard in each area of our Performance Framework, including enrollment targets. As we work to restore the community's faith in Moyer's ability to provide a world class education, our proposed enrollment targets are aligned with the number of students that we can realistically attract to the New Maurice J. Moyer Academy.

2. Describe the nature and extent of the proposed changes to the school's current grade configuration. Indicate whether you seek to add or cease offering a grade or grades, substantially increase or decrease current enrollment practices and/or projections for future enrollment, etc. (Please make sure to indicate whether you seek an increase or reduction of enrollment of between 5% and 15% or more than 15% of the currently approved total enrollment and note that modification requests that fall into those ranges must be received by the Department of Education's Charter School Office between November 1 and December 31.)

We are seeking to reduce our enrollment by more than 15%. The proposed enrollment changes will not impact the grade configuration of The New Maurice J. Moyer Academy. We will continue to serve students in grades 6-12.

3. If your proposed modification involves an expansion of greater than 15% of your currently approved enrollment and the change will be effective within 18 months of the date of this application, please provide as an Attachment and impact analysis that discusses both the positive and negative impacts this expansion will have on the surrounding school districts and community.

The Board of Directors of The New Maurice J. Moyer Academy is requesting to reduce our enrollment by more than 15%. Question 3 does not apply to our request.

 Describe the projected impact of the enrollment modification on the school's program, mission, culture and offerings (both academic and non-academic). Please note: any projected financial impact should be addressed in Core Question #6.

Since our current student population is 227 students, the enrollment modification should have a limited impact on the school's program and course offerings. Moving forward, the Board of Directors understands the importance of maintaining a small school to effectively meet the needs of our students. With the number of students (600) who have been approved through the initial charter, we do not feel that we would adequately meet their social and academic needs.

From a school culture perspective, the Board of Directors feels that we can achieve a stronger instructional culture in a shorter period of time. As previously noted, small schools research supports the fact that organizational cultures are easier to shape when organizations are small. By minimizing our growth, we hope to instill a strong instructional culture within our current students and staff members. Our goal is to minimize staff and student turnover and build on the current strengths of our current instructional culture. Adding an additional 100 students per year would greatly hinder our ability to develop and maintain a strong school culture.

If you are proposing to add grade levels that would create a new grade band not currently served by the school (i.e., K-2, 3-5, 6-8, 9-12):

5. Provide an overview of the planned curriculum, including a course scope and sequence by subject for each grade level that will be affected by this modification. The scope and sequence documents should identify course outcomes and demonstrate clear alignment with the Delaware Content Standards (Common Core State Standards in English Language Arts and Math) in all curricular content areas. Summarize curricular choices, by subject, and the rationale for each choice, including research and other evidence of effectiveness.

Since we are not proposing to add grade levels, question 5 does not apply to the New Maurice J. Moyer Academy.

6.Provide three units of instruction in all content areas with corresponding summative assessments and scoring rubrics per grade band (K-2, 3-5, 6-8, and 9-12) by subject to demonstrate alignment of instruction to the Delaware Content Standards (Common Core State Standards in English Language Arts and Math) pursuant to 14 Del Admin. C. 501 & 502.

Since we are not proposing to add grade levels, question 6 does not apply to the New Maurice J. Moyer Academy.
