Ingestion: Do not induce vomiting. Give several glasses of water for dilution effect. If vomiting occurs, administer additional fluids. Never give anything by mouth to an unconscious person. Contact a physician immediately for further instructions. Inhalation: Move victim to fresh air. Administer oxygen if breathing is difficult, or artificial respiration if breathing has stopped. Contact a physician if irritation persists.

Medical Conditions None known. Aggravated By Exposure:

/. FIRE FIGHTING MEASURES

Firefighters should wear appropriate protective equipment including respiratory protection as conditions warrant. Stop spill/release if it can be done without risk. Move undamaged containers from fire area if it can be done without risk. Water spray may be useful in cooling equipment and containers exposed to heat and flame. Avoid spreading burning material with water used for cooling purposes.

Extinguishing Media: Foam, dry chemical, water spray. °F: >212

Flash Point (closed cup) °F: >212 Special Fire Fighting Procedures: None known

This material contains an oxidizing agent. Product residues can supply oxygen to stimulate or accelerate combustion of organic or other combustible materials. These fires are difficult to extinguish. Unusual Fire & Explosion Hazards: This material contains an oxidizing agent.

/I. ACCIDENTAL RELEASE INFORMATION

reuse. Containerize contaminated material for disposal. After all visible traces have been removed, flush area thoroughly with water. Dispose of all waste in accordance with local, state, and federal regulations. Care must be taken when using or disposition of disposit Spill Response: Only trained personnel with proper protective gear should be permitted in the area. materials and/or their containers to prevent environmental contamination.

ction XIII Waste Handling Procedure

/II. HANDLING AND STORAGE

Handling: Eyewash fountain recommended in work area. Do not use pressure to empty container. Do not cut, grind, weld, or drill on or near this container. Containers, even when empty, can contain product residues and vapors; always obey hazard warnings and handle empty containers as if they were full. Storage: Store this material in a cool, dry, well ventilated area away from heat and all sources of ignition. Keep container tightly closed when

| MATERIAL SAFETY DATA SHEET use. Store only in approved containers that have been properly labeled. Protect container from physical damage. | |
|---|-----|
| Shelf Life (months): 24 /III. EXPOSURE CONTROLS AND PERSONAL PROTECTION | |
| Eye Protection: Use safety glasses when handling product concentrate. Where contact is likely or probable, splash-proof chemical goggles are recommended. If vapors cause eye discomfort, use a full-face respirator. Skin Protection: During normal use of the diluted product, no special precautions other than impervious gloves should be needed. When probable or repeated contact could occur, use additional protective clothing. Selection of specific items such as boots, apron, or full-body suit | |
| will depend on the operation. Respiratory Protection: Atmospheric levels should be maintained below the exposure guideline. When respiratory protection is required, use an approved air-purifying respirator. When exposure guidelines may be greatly exceeded, use an approved positive pressure self-contained breathing apparatus. A respiratory protection program that meets OSHA 1910.134 and ANSI 288.2 requirements must be followed whenever workplace conditions warrant a respirator's use. Environmental Controls: Maintain airborne concentrations below the exposure guidelines. If airborne concentrations are unknown it should be assumed they | |

| XI. IOXICOLOGICAL INFORMATION | |
| I existioning is properties of this chemical mixture have not been thoroughly investigated. XII. ECOLOGICAL PROPERTIES | |
| | |
| XIII. DISPOSAL INFORMATION Dispose of all product and wastes thereof in accordance with local, state, and federal regulations. Empty containers may contain product residuals which could contaminate the environment if improperly managed. It is important to handle empty containers carefully, and to dispose of them in accordance with all pertinent regulations. | |
| XIV. TRANSPORTATION INFORMATION | 100 |
| UN3082, Environmentally Hazardous Substance, Liquid, NOS, (Sodium Nitrite),9, III, RQ (DOT regulated in quantities over 425 lbs in one container ONLY) | 1.1 |
| XV. REGULATORY INFORMATION This product is considered hazardous under the criteria of the Federal OSHA Hazard Communication Standard, 29 CFR 1910.1200. SARA Hazard Category: Acute: True Chronic: False Reactive: False Fire: False R-O-P: False This product contains a toxic chemical(s) subject to the reporting requirements of Section 313 of Title III of the Superfund Amendments and Reauthorization Act and 40 CFR part 372. | 100 |
| KVI. OTHER INFORMATION | - |
| The information on this Material Safety Data Sheet reflects the latest information and data that we have on hazards, properties, and handling of this product under the recommended conditions of use. As the use of this material is subject to conditions beyond the sellers control, seller makes no warranty express or implied as to this material or its use other than its chemical analysis when packed. The total liability of seller shall be limited to the purchase price of the product. | í. |
