Additional security verification

When you sign in with your password, you are also required to respond from a registered device. This makes it harder for a hacker to sign in with just a stolen password. View video to know how to secure your account

what's your preferred option?

We'll use this verification option by default.

- Then a QR Code will generate for your account, keep it pulled up for the next steps.
- Now, go back to your mobile device and select the account listed and then click "Set up 2-step verification".

Configure mobile app

Complete the following steps to configure your mobile app.

- 1. Install the Microsoft authenticator app for Windows Phone, Android or iOS.
- 2. In the app, add an account and choose "Work or school account".

3. Scan the image below.

Configure app without notifications

If you are unable to scan the image, enter the following information in your app. Code: 048 542 6 Url: https://cy!

If the app displays a six-digit code, choose "Next".

- Scan the QR code that was given when setting up the Additional Security Verification.
- After the QR Code is read, a verification will be sent to your phone.
- Then select " Approve" to finish setting up the account.

- Then under your account on the mobile device, select "Enable phone sign-in".
- Once, the Sign-in with your phone screen comes up, click " Continue".

- Login using your "@forsythk12.org" credentials.
- Then you will need to approve the incoming sign-in request on your mobile device.
