Sc/ELA (Science/English Language Arts)

In Science, we will continue the "Cells & Microorganisms" learning unit. This week, students will be learning about harmful and helpful microorganisms. In ELA, we will focus on figurative language (idioms, hyperbole, & proverbs and adages) and writing narratives. The learning targets for this week's lessons are listed below.

Science Learning Targets:

I can define microorganisms.

I can explain how microorganisms are harmful and helpful.

I can observe a cell using a microscope.

ELA Learning Targets:

I can identify the meaning of idioms.

I can identify or use a hyperbole in a text.

I can identify the meaning of proverbs and adages.

I can write a text-based narrative.

Assessments & Assignment due dates:

Assessment Policy: Students are allowed to retake any Science or Language/Grammar assessment in which they received a failing grade. Either the student or the parent can request a retest with a minimum notice of 3 days prior to the desired test date.

Please Note: Reminder TRE has students with severe nut allergies. Please refrain from sending products that have nuts (or products manufactured in plants that process nuts) for snacks or for lunch. We truly appreciate your attention and your sensitivity to this matter. Also, due to limited space in the cafeteria, students will not be allowed to bring a friend when eating with a parent.
