Loose Leaf Paper	Colored Pencils	Protractor
Graphing Paper	Highlighters	Compass

Calculator Recommendations – ALL Math Classes

Students will use the **TI-30XS MultiView** scientific calculator in ALL math classes. Students are encouraged to have their own calculator to use both in class and at home. Each math teacher at NFHS has the emulator software for this calculator installed on their computer. This software projects an interactive representation of the calculator and allows the teacher to demonstrate and instruct the use of this calculator using the interactive white board. This calculator is also approved for use on all Math End-Of-Course Tests as well as on standardized tests such as the SAT and ACT.

**Texas Instrument
TI-30XS MultiView
Scientific Calculator**

Calculator Recommendations – Accelerated/AP Courses ONLY

Students will use both the **TI-30XS MultiView** scientific calculator and the **TI-84 Plus Graphing Calculator** in the accelerated classes. Students are encouraged to have their own calculators to use both in class and at home. Each math teacher at NFHS has the emulator software for these calculators installed on their computer. This software projects an interactive representation of the calculators and allows the teacher to demonstrate and instruct the use of these calculators using the interactive white board. The TI-30XS Multiview Calculator is approved for use on all Math End-Of-Course Tests. The TI-84 Plus Graphing Calculator is approved for use on the SAT, ACT, AP Calculus Exam, and the AP Statistics Exam.
