Communication for PTO next year - PTO discussed some challenges we had this year with communication, and the feedback we have received from some parents. We all realized we cannot make everyone happy, but with toner shortages, and having teachers send out emails, and some have and some have not. We have looked into other PTO boards and how they communicate with families by not relying on the school. There were a few options discussed, to purchase an entire new website, that will link to a school store, and have email blasts to parents if they sign up, we have also discussed the group me app, where parents would have to give their phone number in the beginning of the year to opt into texts through that app, there were also a few other apps we could look into. All of these communication options would be solely based on the parent opting into it and them giving us their information. We will not solicit their information.
