CAPABILITIES

The Marine Corps has been America's expeditionary force in readiness since 1775. We are forward deployed to respond swiftly and aggressively in times of crisis.

We are global leaders, developing expeditionary doctrine and innovation that set the example, and leading other countries' forces and agencies in multinational military operations.

These unique capabilities make us "First to Fight," and our nation's first line of defense.

***“WE WILL BE MOST READY WHEN
OUR NATION IS LEAST READY”***

FIGHTING PHILOSOPHY

We are the nation's elite military branch. We are the President's 911 force, ready to go anywhere in the world, at any time.

Every Marine is a rifleman, trained first as a disciplined warrior regardless of occupational specialty.

Our combined arms approach multiplies the Marine Corps' strengths by bringing our land, air and sea forces together to achieve every mission.

This is the key to winning battles.
