Today's Number Talk

What is $145 + 32$?

1. Type your name & solution.
2. Drag the icon next to your name if you want to share your strategy.
3. Use the "I agree" with the strategy you used.

I agree

I have a strategy

Cathy	JC	Jimmy	Abbie	Nathan
177	167	177	177	168
Mohammed	Astir	Drew	Bailey	Maggie
177	Solution	177	177	177
Summer	Jose	Naomi	Dalton	Carly
168	177	167	167	177
Mika	Fabiola	Sandy	Colin	Katherine
177	177	177	177	?

First I added the tens then I added the ones. I saw 4 tens and 3 tens and 5 ones and 2 ones.

I knew that 145 plus 30 was 175 then I added 2 more ones.

I lined up the place value and added down.

I saw there was only one hundred so I just added the tens and ones to make 177

40 plus 30 is 70 and 5 plus 2 is 7 so it's 177

I started with the ones then add the tens then the hundreds to make 177.
