

WELCOME

Austin Middle School
Douglasville, GA

Welcome to Foundations of Interactive Design!

My name is Christy Cantrell-Herrier. I am excited to be at Austin as the Computer Science teacher again for the 2020-2021 school year! This school year brings a new Computer Science class to Austin Middle School.

The class will be a semester course that covers web and game design. In addition, things like problem solving skills and team building skills will also be integrated.

This will be a hands-on course with the majority of assignments being online thru Code.org. I will also utilize Canvas for assignments, resources, etc. Parents will need to add themselves as observers on their student's account.

I will utilize Infinite Campus as the gradebook.

There will be more information to follow as we complete our first few days of school.

In the meantime, I look forward to seeing the students, and another awesome year at Austin Middle School!

Your child will need the following supplies this year:

1. **Pencil/Pen Daily**
2. **One Subject Notebook** (Spiral or composition; to be used for my class only)
3. **Earbuds** that plug into a computer audio port. (Most phone earbuds (ie Apple) do not work on the computer) These don't have to be expensive and can even be purchased at Dollar Tree.
4. **Anti-bacterial Wipes & Tissues** are needed and greatly appreciated! 😊
