

Delaware Recommended Curriculum Grade 4 Course Outline *Our State and Nation*

The 4th grade course in the Social Studies Recommended Curriculum has a broad chronological scope. This is not to imply that instruction in Delaware and American history content dominates this course. Rather, it means that instruction uses Delaware and the United States as a context in the past and present. Since Civics, Geography, and Economics instruction is expected during this grade, the historical timeframe in which instruction takes place must have a wide range. Teachers may decide to use this course description as a guide for their instruction.

A student should know historical chronology in such a way as to be able to place people, laws, and events. For example, since 1609 there occurred European colonization of the Americas, the American Revolution, writing of the Constitution, the rise of industrialization and urbanization, an expansion in freedom, and increasing technological change. Without knowing the exact years for an event, a student should still be able to place all these events within a chronology in their approximate place. In other words, students should know the major events and their approximate time. Grade 4-5 benchmarks

An organized mental framework of events, people, trends, and other historical phenomena is essential to understanding, evaluating, and constructing historical interpretations. Such a framework allows us to draw logical inferences concerning the continuing impact of the past on the present. Individual periods, regions, or events should not be studied in isolation but rather in comparison to one another. Nor should the broad sweep of events or an emphasis on leaders, great works, and pivotal events obscure the importance of seeking to understand the everyday life of ordinary people in other times and places.

This course outline is a collaborative project between the Delaware Department of Education, the Social Studies Coalition of Delaware, the Democracy Project, the Delaware Center for Teacher Education, the Delaware Geographic Alliance, and the Center for Education and Entrepreneurship at the University of Delaware.

Delaware Recommended Curriculum Grade 4 Course Outline *Our State and Nation*

Essential Question

What were Delaware and America like before contact by Europeans?

Benchmarks

Geography 1a, History 4a

Content Native Americans before European contact

Essential Question

How can thinking like a historian help me draw credible conclusions?

Benchmarks History 1a, History 2b, History 4a

Content Exploration and settlement of Colonial America
