AGENDA

- Test Administration
 - FAST Grades VPK-2 (STAR/Renaissance)
 - FAST Grades 3-5
- Test Design Information
- Scoring & Reporting
- Helpful Resources

WHAT IS B.E.S.T. & FAST??

- Beginning with the 2022–23 school year, Florida’s statewide, standardized assessments in Reading, Writing, and Mathematics will be aligned with the Benchmarks for Excellent Student Thinking (B.E.S.T.).
- The Florida Assessment of Student Thinking (FAST), which includes VPK-5 Reading and K-5 Mathematics assessments, will be administered as a progress monitoring assessment, which students will participate in **three times per year**.

PROGRESS MONITORING (PM) 1-3

- **PM1** – provides a baseline score so teachers can track student progress in learning the B.E.S.T. Standards from PM1 to PM2.
- **PM2** – provides a mid-year score to compare to the baseline score from PM1.
- **PM3** – provides a summative score that will accurately measure student mastery of the B.E.S.T. Standards at the end of the school year.
 - *PM1 and PM2 are for informational purposes*
 - *PM3 will be used for school accountability beginning in the 2023-24 school year*

WHO PARTICIPATES?

- Per Florida Statute 1008.22, **all public-school students** are required to participate in the statewide assessment program.
 - All English Language Learners (ELLs) must participate in the state assessments (including ELA). This includes ELLs who have been enrolled in school in the U.S. for less than one year.
 - Accommodations may be provided to students with a current Individual Education Plan (IEP) or Section 504 Plan. Types of accommodations include:
 - Flexible Presentation
 - Flexible Responding
 - Flexible Scheduling
 - Flexible Setting
 - Assistive Devices & Tools
 - ***Paper-Based Only for Progress Monitoring 3***
 - ***Regular Print, Large Print, One-Item-Per-Page, and Braille***

TEST SCHEDULE

Assessment	Grade Level	Test Date(s)
PM1 - FAST Star ELA (Early Literacy & Reading) PM1 FAST Star Math	VPK-2	August 29 – October 7
PM1 FAST ELA-Reading & Math	Grades 3-5	September 7 – October 7
PM2 - FAST Star ELA (Early Literacy & Reading) PM2 FAST Star Math	VPK-2	January 9-27
PM2 FAST ELA-Reading & Math	Grades 3-5	January 9-27
PM3 - FAST Star ELA (Early Literacy & Reading) PM3 FAST Star Math	VPK-2	May 1-12
PM3 FAST ELA-Reading & Math	Grades 3-5	May 1-12
Spring Statewide Science	Grade 5	May 15 & 16 Make-Ups: May 17-25

GRADES 3-5 STATE REQUIRED TESTS

- Grades 3-5 Progress Monitoring (PM) 1-3 are computer-adaptive tests specific to the grade/subject tested
 - For example: a grade 3 student taking the grade 3 ELA assessment will only see items based on the grade 3 B.E.S.T. standards – the test will NOT adapt up or down a grade level
 - The questions get easier or more difficult depending on how the student responds and each student will see different questions.
 - Paper-based accommodations will be available beginning with PM3.
 - Regular print, large print, one-item-per-page, and braille
- Grade 5 Statewide Science
 - This is a paper-based test and consists of all multiple-choice questions (not adaptive)

GRADES VPK-2 ELA & K-2 MATH TEST TIMES

- Grades VPK-1 Star Early Literacy (computer adaptive)
 - Timing: ~30 minutes
 - # of items: ~27 items
 - *If a Grade K or 1 student scores an 852 or higher on Star Early Literacy, the student will take Star Reading on the subsequent Progress Monitor*
- Grade 2 Star Reading (computer adaptive)
 - Timing: ~30 minutes
 - # of items: ~34 items
- Grades K-2 Star Math (computer adaptive)
 - Timing: ~45 minutes
 - # of items: ~34 items

GRADES VPK-2 ELA & K-2 MATH TEST TIMES (CONTINUED)

For Grades VPK-2, the items are timed (see below for the timing per item)

RENAISSANCE
Star Early Literacy[®]

**90 seconds
per item**

*Extended: 270 sec

~30 minutes to
answer all questions

RENAISSANCE
Star Math[®]

**3 minutes
per item**

*Extended: 6 min

~45 minutes to
answer all questions

RENAISSANCE
Star Reading[®]

**60 sec per item
(first 10 items)**

*Extended: 180 sec

**120 sec per item
(remaining skill items)**

*Extended: 270 sec

~30 minutes to answer
all questions

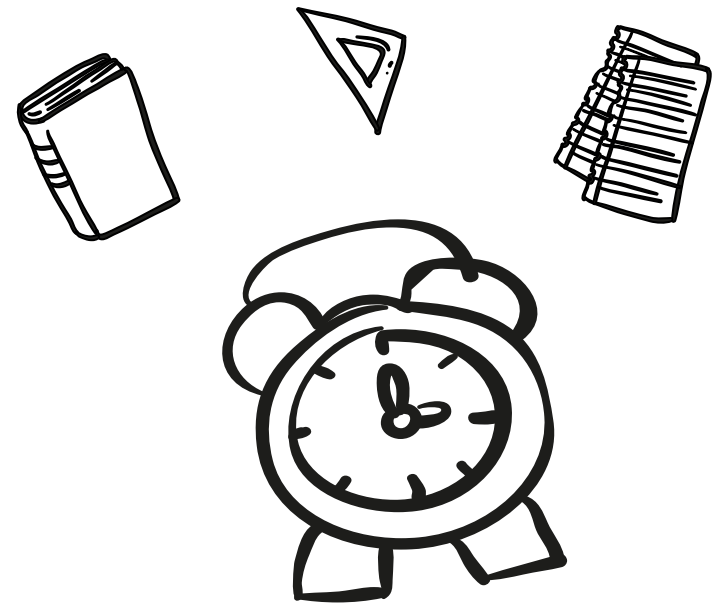

When there are **15 seconds left** in an item, a clock graphic appears at the top of the screen letting the student know they need to select an answer and move on to the next question.

GRADES 3-5 FAST ELA & MATH TEST TIMES

For Grades 3-5, the items are not timed – the entire test is timed

FAST ELA

Grade	ELA	Item count	Timing	50% Ext Accom	100% Ext Accom
3-5	PM1 (Aug/Sept) PM2 (Jan)	36-40	Minimum: 60 minutes Maximum: up to 90 minutes	45 additional minutes	90 additional minutes
	PM3* (May)	36-40*	Minimum: 60 minutes Maximum: up to 120 minutes	60 additional minutes	120 additional minutes

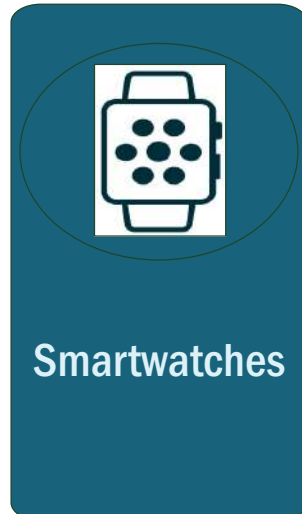

FAST MATH

Grade	MATH	Item count	Timing	50% Ext Accom	100% Ext Accom
3-5	PM1 (Aug/Sept) PM2 (Jan)	35-40	Minimum: 50 minutes Maximum: up to 80 minutes	40 additional minutes	80 additional minutes
	PM3* (May)	35-40*	Minimum: 50 minutes Maximum: up to 100 minutes	50 additional minutes	100 additional minutes

*More information on PM3 forthcoming (item count and timing are subject to change).

NO ELECTRONIC DEVICES

- **No electronic devices permitted during testing**
 - Students **CANNOT** have any electronic device (e.g., cell phones/smartphones, smartwatches, cameras, etc.) on them **OR** within arm's reach even if they do not use them
 - **Cause for immediate invalidation of test!!**

Prepare for the FAST

The FAST is administered to students in grades VPK-2 and 3-10.

Select the appropriate card to the right to view sample test items for VPK-2 or to take a sample test for Grades 3-10.

FAST PORTAL - SAMPLE TESTS

- Sample test materials (STMs) contain sample test items aligned to the B.E.S.T. Standards and allow teachers, parents/guardians, and students to become familiar with the various item types that will be encountered on the assessments, as well as the system, functionality, and tools on computer-based tests.
- Please note the following:
 - While students are encouraged to use STMs, practice test sessions are not required prior to testing.
 - For students taking Grade 5 Math RAMP, it is strongly encouraged that they become familiar with the online calculator prior to testing (handheld calculators are now permitted)
 - STMs for paper-based accommodations will be available (online only) in Fall 2022

TEST DESIGN INFORMATION

GRADES VPK-2 FAST - STAR EARLY LITERACY

GRADES VPK-1: STAR EARLY LITERACY

- Computer Adaptive
 - No paper test version available
 - Not appropriate for students who are blind, deaf/hard of hearing, or who have other disabilities that preclude accessing a computer
- 27 questions
 - Assesses 3 broad domains / 10 subdomains / 42 skills
 - All items are presented orally
 - Student must have earbuds or headphones

Early Numeracy

- Number Naming and Number Identification
- Number Object Correspondence
- Sequence Completion
- Composing and Decomposing
- Measurement

GRADE 2 STAR READING

5 KEY READING DOMAINS

- Word Knowledge & Skills
- Comprehensive Strategies and Constructing Meaning
- Analyzing Literacy Text
- Understanding Author's Craft
- Analyzing Argument & Evaluating Text

- Computer Adaptive
 - **NOT presented orally**
 - No paper test version available
 - Not appropriate for students who are blind, deaf/hard of hearing, or who have other disabilities that preclude accessing a computer

GRADES K-2 STAR MATH

4 BROAD DOMAINS

- Numbers and Operations
- Algebra
- Geometry and Measurement
- Data Analysis, Statistics, and Probability

- Computer Adaptive
 - All items are presented orally
 - Student must have earbuds or headphones
 - No paper test version available
 - Not appropriate for students who are blind, deaf/hard of hearing, or who have other disabilities that preclude accessing a computer

GRADES 3-5 ELA-READING

- Two types of Reading passages:
 - **Informational:** provide readers with facts about a particular subject and may include magazine and newspaper articles, editorials, and biographies
 - **Literary:** written primarily for reader's enjoyment and may include short stories, poems, folk tales, and selections from novels

GRADES 4-5 WRITING FIELD TEST

- In 2022–23, Writing will be administered as a field test to a representative sample of Florida students during April of 2023. (At this time, schools have not been selected.)
- FAST Writing will be administered to all students in grades 4-5 in April of 2024.
- Writing will be reported separately from Reading and will not contribute to an overall ELA score.
- FAST Writing will be computer-based in all assessed grades and prompts will be in response to text.
- Additional information about Writing dates and administration policies is forthcoming.

GRADES 4-5 WRITING FIELD TEST

- Writing component consists of one text-based constructed response item
 - Students read a variety of texts and respond to a prompt
- Prompt will ask for the student's opinion or ask the student to inform/explain
- Writing Score
 - At this time, it is unknown how the Writing Field Test will be scored

GRADES 4-5 WRITING PASSAGE & PROMPT

Read the "Should Elementary School Students Switch Classes?" passage set.

Should Elementary School Students Switch Classes?

Source 1: Difficult Decisions for Schools

by Lillian James

1 If your school is like most elementary schools, you stay with the same teacher to learn subjects like math, reading, science, and social studies. You might switch classes for gym, music, or art. But when you get to middle school, you'll likely have a different teacher for each subject. Some people wonder whether students should switch classes earlier than in middle school.

Source 2: Deeper Learning Through Specialization

by Leon Samuels

6 Nearly every high school in the country has different departments for each subject. The math teacher has a math background. The science teacher has a deep understanding of earth science or physics. These teachers get to teach what they know and take pride in knowing it well.

Source 3: One Student, One Teacher

by Lucille Ruby

13 Young children need guidance, support, and stability. According to Donna Snyder, a professional development expert, this is provided by children's classroom teachers. By staying in one classroom with one teacher for the whole day, the youngest students can bond with their teachers. This connection with their teacher gives the young student confidence and creates a safe environment for learning.

Write an article for the school newspaper in which you give your opinion about whether students in your school should switch classes for different subjects. Use information from the passages in your article.

Manage your time carefully so that you can

- read the passages;
- plan your response;
- write your response; and
- revise and edit your response.

Be sure to include

- an introduction;
- support for your opinion using information from the passages; and
- a conclusion that is related to your opinion.

Your response should be in the form of a multiparagraph essay. Write your response in the space provided.

- Multiselect
- Editing Task Choice
- Evidence-Based Selected Response
- Open Response
- Table Match
- Graphic Response Item Display (GRID) / Action Buttons
- Equation Editor
- Selectable Hot Text

TEST ITEM TYPES

- Students select one correct answer from four answer choices.

Which detail in Passage 1 supports the author's claim that restaurants want to keep their customers happy?

- Ⓐ Crum sliced each potato carefully.
- Ⓑ Crum made the potato dish twice.
- Ⓒ Crum fried the potatoes in grease.
- Ⓓ Crum made the potatoes too thick.

TEST ITEM TYPES

- Student is directed to select **two** or select **all** of the correct answers from the options provided.

Hannah has 3 baseballs. Each baseball weighs $\frac{5}{16}$ pound.

Select all the expressions that represent the total weight, in pounds, of all 3 baseballs.

$\frac{5}{16} + 3$

$\frac{5}{16} \times 3$

$\frac{5}{16} \times \frac{3}{1}$

$\frac{5}{16} \times \frac{3}{3}$

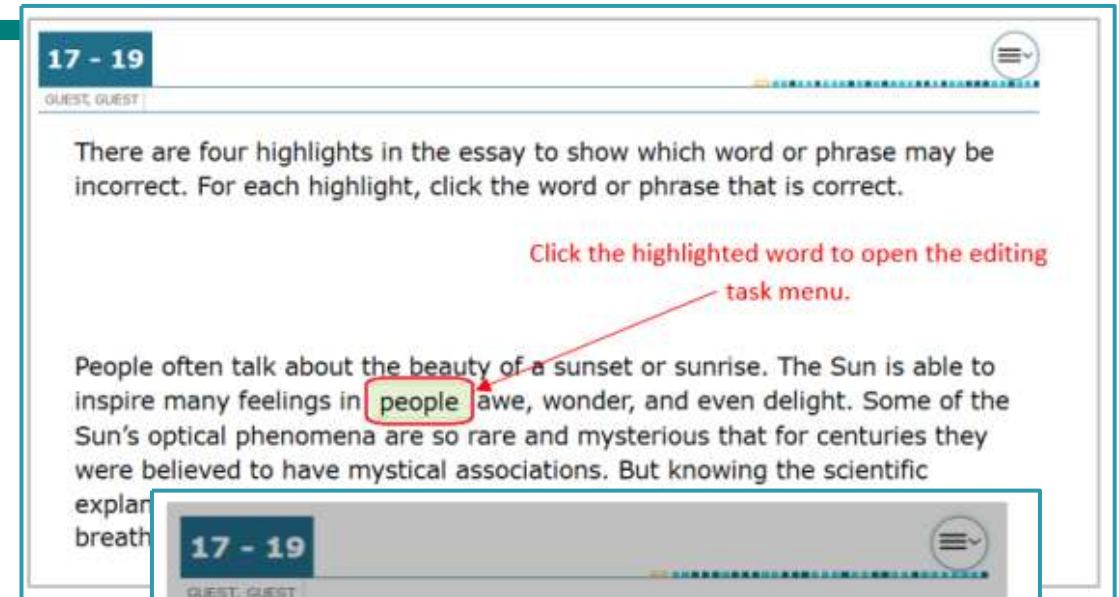

$\frac{5}{16} + \frac{5}{16} + \frac{5}{16}$

Click the highlighted word to open the editing task menu.

People often talk about the beauty of a sunset or sunrise. The Sun is able to inspire many feelings in **people** awe, wonder, and even delight. Some of the Sun's optical phenomena are so rare and mysterious that for centuries they were believed to have mystical associations. But knowing the scientific explanation, natural light shows doesn't make them any less breathtaking.

TEST ITEM TYPES

- Other editing task items require students to read a short passage with highlighted words or phrases.
- Each multiple-choice item in the passage set corresponds to one of the highlighted portions of the associated text.
- Students select the correct word or phrase that should replace the highlighted word or phrase OR select “correct as is”

Answer the following questions based on the underlined sections of the passage.

Adored by the masses, plaid shows no signs of going out of style. Though this signature woven pattern is widely available in stores now, its beginnings were mostly functional. In fact, plaid had several important functions when it was first created in the 1500s. Back then, plaid reigned supreme in Scotland and was actually tartan. Plaid and tartan are very similar, but not the exact same thing; tartan is a wool fabric with intersecting lines. These lines form a plaid pattern. An easy way to remember the difference is this rule of thumb: "all tartans are plaid, but not all plaid is tartan."

22

Answer this question based on the underlined section of the passage.

Choose the correct punctuation.

- thumb:
- thumb
- thumb.
- correct as is

TEST ITEM TYPES

- Typically, Part A is a multiple-choice question and Part B may be multiple choice or multiselect.
- Part A often asks students to make an analysis or inference, and Part B requires students to select text to support their answer in Part A.

This question has two parts. First, answer Part A. Then, answer Part B.

Part A

In Passage 1, what was a result of the creation of Crum's new potato dish?

- Ⓐ He made cooking with grease more popular.
- Ⓑ He figured out a new way to slice vegetables.
- Ⓒ He changed what people thought were good manners.
- Ⓓ He created recipes that mixed food from two different countries.

Part B

Which detail supports the answer in Part A?

- Ⓐ "They had been introduced in this country more than half a century earlier." (paragraph 2)
- Ⓑ "That way they could be eaten with a fork." (paragraph 3)
- Ⓒ "He wanted them to be sliced a little bit thinner." (paragraph 4)
- Ⓓ "Apparently the diner didn't mind using his fingers." (paragraph 8)

TEST ITEM TYPES

- Students use the keyboard to enter the response into a text box.

14

GUEST, GUEST

David and Tonya each cut a cylinder in half. The cross-section that results from David's cut is a rectangle. The cross-section that results from Tonya's cut is a circle.

How was Tonya's cut different from David's cut?

Type your answer in the space provided.

Click in the text box and type your answer using the keyboard.

TEST ITEM TYPES

- Matching items requires students to check a box to indicate if the information in the column headers matches the information in each row.

Complete the table to show how each author explains Crum's response to the diner who sent his food back.

	Passage 1	Passage 2	Both Passages

TEST ITEM TYPES

- Grid/Action items may require students to use the point, line, or arrow buttons to create a response.
- Other Grid/Action items may require students to select words, phrases, or images and/or use the drag-and-drop feature to place them into an answer area.

A protractor with labeled points is shown.

Select two points to draw two rays to form an angle measuring 80 degrees.

Draw a ray from point A to point

7	8	9
0	.	$\frac{\square}{\square}$

TEST ITEM TYPES

- Hot text items require students to click on a response option (Selectable Hot Text) or drag a response option to another location (Drag and Drop Hot Text).

Passage 1: from *The Metamorphoses*
by Ovid

Juliet's feelings change in a variety of ways in section 14 of Passage 2. Drag the feelings listed below onto the chart, in the order in which Juliet experiences them in this section.

Order	Feeling

Fourth	

Feelings: Drag the options into their correct locations in the boxes above.

- uncertainty about how Romeo wants her to act
- embarrassment over what Romeo has heard her say
- hesitance to take Romeo's words at face value
- sincerity about her affection for Romeo

Drag your response to each answer box.

Available response options.

- 6 Plants are classified according to their structures. The plant pictured below reproduces without seeds and has simple tubes for transporting water.

In which group of plants would this plant be classified?

- F. spore-producing plants with many leaves
- G. plants that produce fruit on their leaves
- H. plants that carry seeds on their leaves
- I. flowering plants with many leaves

- 7 Erosion and weathering can both cause changes to the surface of Earth. Which of the following happens **only** because of erosion and NOT because of weathering?

- A. Rocks form deep underground.
- B. Rocks become smooth and round.
- C. Rocks are broken apart into small pieces.
- D. Rocks are moved from one place to another.

GRADE 5 SCIENCE TEST DESIGN

- Students will often need to read text, pictures, charts, and/or graphics prior to answering the questions.

- 10 A radiometer is a device with fins that spin when light energy strikes them. A picture of a radiometer is shown below. As part of an experiment, a light source was placed 50 centimeters (cm) from a radiometer. The light source gave off four different-colored lights for 30 seconds (s) each. After each color of light was turned off, the amount of time the fins on the radiometer spun was recorded. The results are shown in the table below.

Radiometer

RADIOMETER DATA

Color of Light	Spinning Time (s)
Red	46
Green	55
Blue	72
White	75

Which color of light provided the **greatest** amount of light energy according to the data in the table?

- E. red
- G. green
- H. blue
- I. white

The background of the slide is a grayscale photograph of a document. It features a bar chart with several vertical bars of varying heights, overlaid on a grid. A pen is visible on the left side of the chart, pointing towards the bottom. The overall image is slightly blurred, giving it a professional and focused appearance.

SCORING & REPORTING

GRADES 3-5 FAST REPORTING

- In the first year, only certain information can be reported until standard setting takes place and new scale scores are established (Summer 2023 establish a new FAST scale).
- For the 2022–23 school year, the following information for grades 3–10 FAST ELA Reading and grades 3–8 FAST Mathematics will be reported:
 - Provisional scores will be linked to an FSA equivalent scale (see slide 54).
 - Students will receive an **overall scale score** and **achievement level** for the overall scale score on the equivalent scale.
 - Students will also receive reporting category scale scores and achievement levels for reporting categories.
 - After the close of the test window, the Florida Department of Education (FDOE) will report **percentile** ranks at the student level for parents, schools, and districts.

GRADES 3-5 FAST ACHIEVEMENT LEVELS

- The image describes each level and provides the scale score ranges for each level by grade level/subject test.
 - Please remember that these levels are from the 2021-22 performance scale.
 - New achievement levels for the FAST scale will be available in summer of 2023.
 - Achievement levels range from Level 1 to Level 5. For all assessments, Level 3 indicates on-grade-level performance.

GRADES 3-5 FAST REPORTING

■ PMI and PM2

- For this transitional year, it is important for teachers and families to understand that this information is intended to provide **baseline and mid-year results** for PMI and PM2 respectively.
- These results are for **informational purposes only** and should be used to identify areas that may need additional instruction and support.
- These results **should not** be considered student achievement designations.

- **PM3** provides a summative score at the end of the year to measure student mastery of the grade-level content standards

VPK-5 FAMILY PORTAL

- For PMI, students' results will not be released into the Family Portal until mid- to late- October
- Family Portal Brochure describes how to access your student's results via the secure SCPS Skyward Family Access (must use the computer not phone application)
- Families can view data from Fall 2020 to current school year

How to Access the Family Portal

The new Florida Department of Education's Family Portal provides a central location for students' assessments results.

The homepage displays the student's scores for the ELA, Math, Science, and EOCs (Algebra 1, Geometry, Biology 1, Civics, and/or U.S. History) assessments that he/she completed from Fall 2020 to current school year.

How can I access the Family Portal?

1. Log in to the secure SCPS Skyward Family Access
2. Click on **District Links** in the upper right corner of the home page,
3. Click on Florida State Assessment Portal (Student Name) - you will be directed to your student's assessments results. *Note: If you have multiple students then you will have multiple links.*

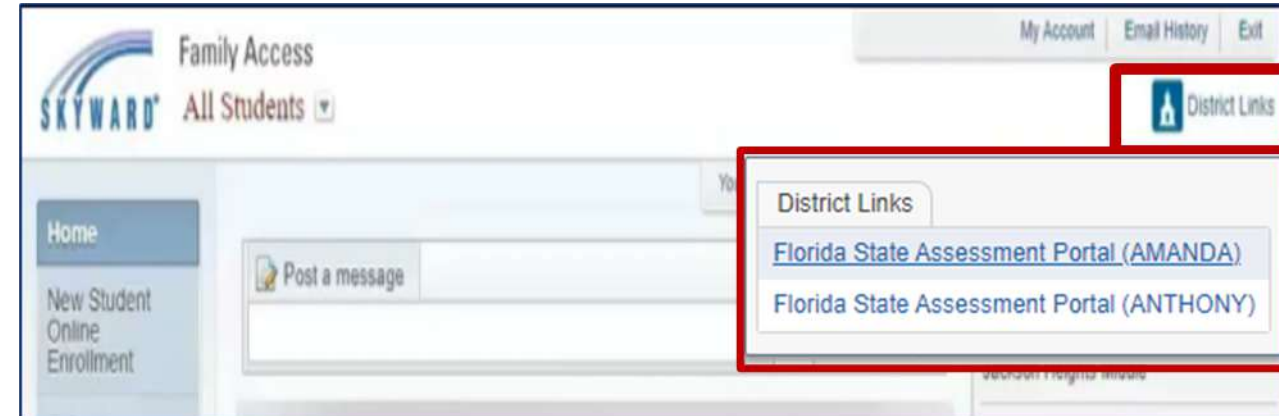

What information can I find on the Family Portal?

1. Displays the student's test results from Fall 2020 to current test administrations (scale score, performance level, and bar graph)
2. Student's Individual Score Reports (detailed report) with an interpretative guide
3. Glossary
4. Resources / FAQs

ACCESSING FAMILY PORTAL VIA SKYWARD

- SCPS students and families will access the FDOE's Family Portal via the secure Skyward Family Access
 1. Log in to Skyward Family Access
 2. Click on District Links
 3. Click on Florida State Assessment Portal (Student Name)
 - If you have multiple students, then there will be a link for each student

If you do not have a Skyward Family Access account, please contact your school.

FAMILY PORTAL CONTENT DESCRIPTIONS

- 1) Student's Details: Displays your student's name, ID, and date of birth.
- 2) Landing Page: Displays the most recent test(s) that your student completed in a subject (ELA, Math, etc.).
 - This includes the test's name, the date the student finished it, the student's score on the test, and the student's performance level for the test.
 - If a test was added to the Family Portal within the last 30 days, a "New!" icon also appears beside the test.
 - If you do not see any results on the Family Portal for your student, it may mean that your student has not completed any tests this year, that the tests they completed are not yet scored, or that the tests they completed do not get reported in the Family Portal.
- 3) Score: Your student's scale score for a test appears in bold font near the top of the subject information.
Please note, different test subjects may be scored differently. If your student's test could not be scored, a message will display for the subject, explaining why the test could not be scored.
- 4) Bar Graph: The bar graph displays a color-coded sections for the performance levels on a test. An arrow shows you which performance level your student earned for the test, and a description below the graph explains what this performance level means for your student's test results. *Please note, different test subjects may use different performance levels.*
- 5) View All Tests: If you want to see the results for every test your student completed in a particular subject, you can click View All Tests for that subject. A new page will appear showing you the tests results for each test your student completed in that subject.
- 6) View Detailed Reports: If you want to see an Individual Score Report (ISR), you can click the View Detailed Report button. A popup window will appear, allowing you to download the IRS, along with a guide for understanding the results.
- 7) New Reports Button: When score reports for your student have been added to the Family Portal within the last 30 days, a "New!" message appears at the top of the page, showing you your student's latest tests.
- 8) Glossary Button: You can click the book in the top right corner of the page to view a glossary that explains the terms that you may see in your student's reports.

RENAISSANCE Parent Report for John Dennison

School: Renaissance Oaks Elementary School Teacher: Literacy, E. Class: 1st Grade Credit: 1st Test Date: Apr 5, 2022 9:08am

Dear Parent or Guardian of John Dennison: **Parent Report**

John has taken a Star Early Literacy assessment on the computer. Star Early Literacy measures your child's proficiency in up to nine areas that are important in reading development. As with any assessment, many factors can affect your child's scores. It is important to understand that these scores provide only one picture of how your child is doing in school.

870
Scaled Score

69
Percentile Rank

BR190L - BR40L
Lexile® Range

The Scaled Score is your child's overall score, calculated based on both the difficulty of the questions and the number of correct responses. Scaled Scores in Star Early Literacy in the Unified scale range from 200 to 1100 and span the grades Pre-K through 3.

John's skills are higher than 69% of students nationally in the same grade. This score is at average. The PR Range indicates that, if John had taken the Star Early Literacy test many times, most of his/her scores would likely have been between 48 - 83.

The Lexile® Range spans reading levels that are appropriately challenging for reading practice. John should be selecting books in this range for optimal growth in reading. This range is approximate. Success at any reading level depends on your child's interest and prior knowledge of a book's content.

Scaled Scores relate to four developmental stages: Early Emergent Reader (200 - 682), Late Emergent Reader (683 - 785), Transitional Reader (786 - 851), and Probable Reader (852 - 1100). A Scaled Score of 870 means that John is at the Probable Reader stage.

Children at the Probable Reader stage are becoming proficient at recognizing many words, both in and out of context. They spend less time identifying and sounding out words and more time understanding what they have read. They can blend sounds and word parts to read words and sentences more quickly, smoothly, and independently.

John is using more complex strategies to decode words and access the meaning of grade-appropriate text. He/she understands that many grade-level words can have similar or opposite meanings. He/she understands that words have different functions. He/she is increasingly able to select books that interest him/her, to monitor his/her own reading, and to self-correct as needed. John is probably able to locate

Alana's Overall English/Language Arts Level

Level 4 At/Above Benchmark

Alana's score of 874 on the Star Reading test is based on the difficulty of the questions and the number of correct responses. The scale has a range of 600 - 1400. This score results in a placement in Level 4, which meets the target. It is higher than 43% of students in second grade and are comparable to those of a typical 2nd grader in the first month of the school year.

Domain Scores

These scores range from 0-100, and represent Alana's estimated percent of mastery at a second-grade level.

Suggested Skills

Eligha's STAR Early Literacy scaled score(s) suggest these skills from Core Progress™ learning progressions would be challenging, but not too difficult for her. Combine this information with your own knowledge of the student and use your professional judgment when designing an instructional program. Use the Core Progress learning progressions to see how these skills fit within the larger context of the progression.

Reading: Foundational Skills

Print Concepts

This score suggests Eligha should practice the following skills to improve understanding of print concepts. In particular, Eligha should work on distinguishing between similarly spelled words and automatically naming all the letters of the alphabet.

- K-1 Distinguish letters from words (e.g., identify which is a word, not a letter, from choices c, t, pat; identify which is a letter, not a word from choices: the, b, fox)
- K-1 Understand that sounds paired with letters represent spoken speech in print (e.g., students find the letter that starts their name in environmental print and identify the sound it makes)
- K-1 Distinguish letters from numbers (e.g., select J from choices J, 8, 7)
- K-1 Compare the lengths of different words based on how many letters they contain (e.g., explain that oil is longer than it because oil has more letters)
- K-1 Clap and count the number of words in a given sentence
- K-1 Distinguish between the shapes of upper- and lowercase letters (e.g., pick the letter that is different in S, S, C; pick the letter that is different in E, E, f)
- K-1 Distinguish between similarly spelled words that have different letters (e.g., pick the word that is different from the others in: an, as, en)
- K-1 Identify the letters of the alphabet (e.g., pick the letter a from a, a, o)
- K-1 Name, rapidly and automatically, the letters of the alphabet

Phonological Awareness

This score suggests Eligha should practice the following phonological awareness skills, particularly those dealing with segmenting syllables and recognizing and producing rhymes.

VPK-2 STAR SCALE SCORE RANGES

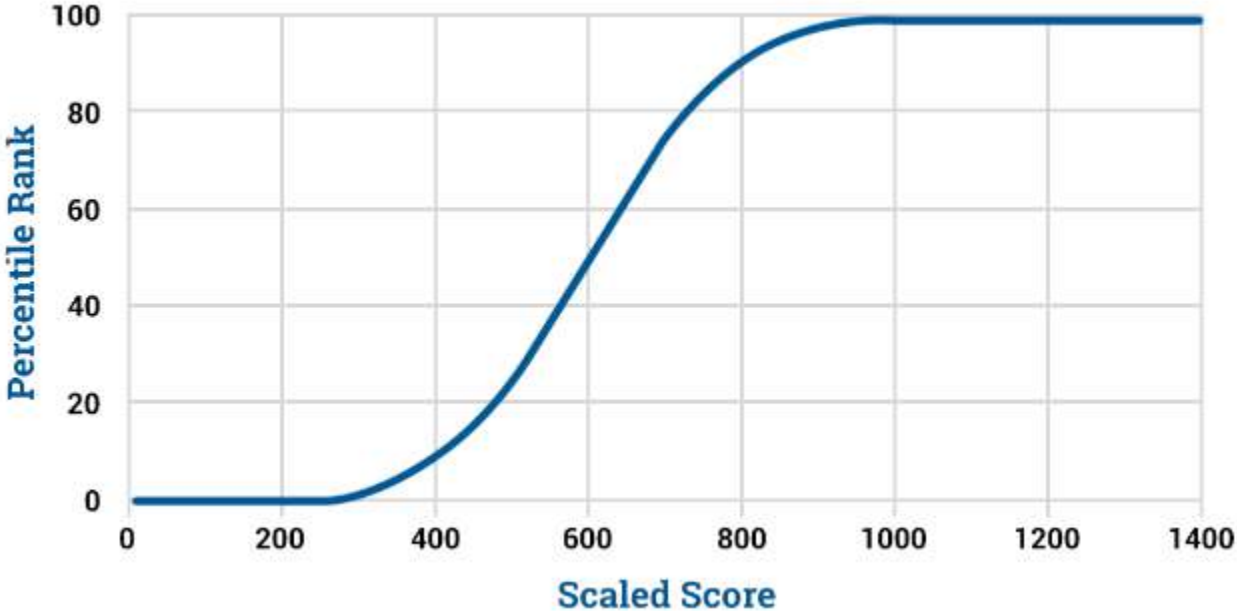

- Star Early Literacy (VPK-1)
 - Scale Score Range: 200-1100

- Star Reading (G2) & Math (K-2)
 - Scale Score Range: 600-1400

VPK-2 STAR PERCENTILE RANKS

- Percentile Rank score range from 1-99 and express student ability relative to the scores of other students in the same grade.
 - For a particular student, this score indicates the percentage of students in the norms group who obtained lower scores. *For example: if a reading assessment gave a student a Percentile Rank of 85, the student’s reading skills are greater than 85% of other children in the same grade.*

GRADES 3-5 FAST STUDENT REPORT

1st Page of the Report

- **Blue-shaded** area displays the student's scale score, achievement level, and a chart indicating the student's scale score and where it falls in the achievement level.
- **Orange-shaded** area contains important notes for families
- **Green-shaded** area displays the student's achievement level (below, at/near, or above the standard) for each reporting category in the test.

The top of the Individual Student Report contains student, school, and district information, as well as the grade-level/subject test the student took. The example shown is for a Grade 4 FAST ELA Reading test.

- **Score information:** The **blue**-shaded area displays the student's scale score, achievement level, and a chart indicating the student's scale score and where it falls in the achievement level.
- **Notes for families:** The **orange**-shaded area contains important notes for families.
 1. 2022-23 FAST scores are reported on the 2021-22 score scale.
 2. Percentile Rank (displayed in the blue-shaded area) is not calculated until the close of each PM window and will show where your student's performance is compared to all other students who took the same test in this PM window. You may request an updated report after the window to view this information or access it in the Family Portal once it is available.
 3. Grades 3–5 students only who score at Level 1 or 2 on FAST ELA Reading may be eligible to receive additional support, including books from the New Worlds Reading Initiative and a \$500 reading scholarship. If your student is in Grade 6 or above, these notes will not appear on your report.
- **Performance by Reporting Category:** The **green**-shaded section displays the student's achievement level (below, at/near, above the standard) for each reporting category in the test. These classifications indicate a student's level of success with items that assess the benchmarks within each category.

How Did Your Student Do on the Test?

Score: 327

Level 5 Mastery: Students who score in Level 5 demonstrate mastery of the B.E.S.T. Standards for their grade. They are highly likely to excel in the next grade.

Level 4 Proficient: Students who score in Level 4 demonstrate proficiency in the B.E.S.T. Standards for their grade. They are likely to excel in the next grade.

Level 3 On-Grade-Level: Students who score in Level 3 demonstrate on-grade-level mastery of the B.E.S.T. Standards for their grade. They may need additional support to excel in the next grade.

Level 2 Below Satisfactory: Students who score in Level 2 demonstrate a below satisfactory level of mastery of the B.E.S.T. Standards for their grade. To be prepared for the next grade, they are likely to need substantial support.

Level 1 Inadequate: Students who score in Level 1 demonstrate an inadequate level of mastery of the B.E.S.T. Standards for their grade. To be prepared for the next grade, they are highly likely to need substantial support.

Please note, for the 2022-2023 school year only, student achievement levels are provisional, and are linked to the 2021-2022 reporting scale, as required by Florida law. For 2023-2024 and beyond, scores will be reported on a new scale after the State Board of Education adopts new student achievement expectations in fall of 2023.

Percentile rank will be reported after the PM window closes. This rank will indicate where your student's performance falls compared to all other students who took the same test in this window.

Please visit the FAST Portal at www.fltest.org to access additional information and resources, including a Parent Quick Guide that explains each element of this report and what it means for your student.

Students who scored a Level 1 or Level 2 may be eligible to receive free books on a monthly basis through the New Worlds Reading Initiative. Visit <http://newworldsreading.com> for more information.

Students who scored a Level 1 or Level 2 may be eligible for a \$500 reading scholarship to be used for instructional materials, tutoring, and summer or after school educational programs. Visit <http://stepupforstudents.org/reading> for more information.

Reading Informational Text	◻	The student performance is at/near the standard.
Reading Prose and Poetry	✓	The student performance is above the standard.

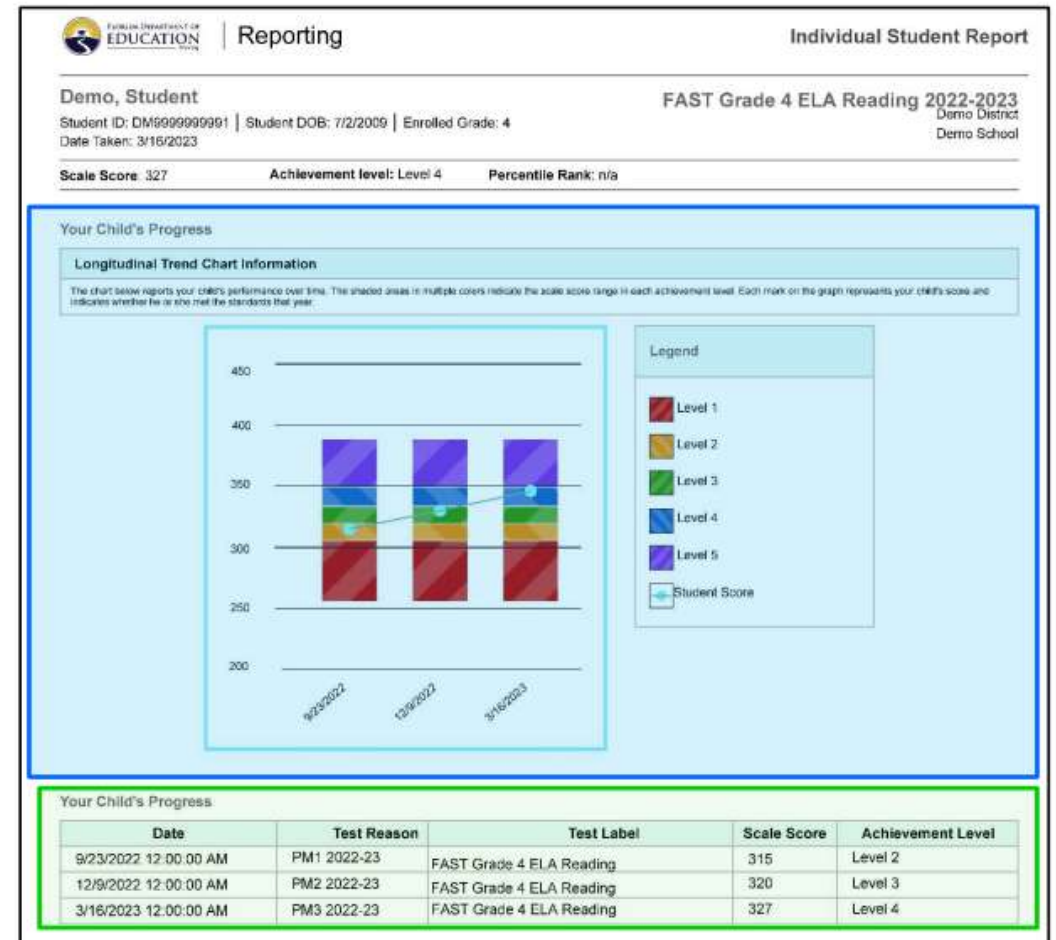

GRADES 3-5 FAST STUDENT REPORT

2nd Page of the Report

- Blue-shaded area displays a student's achievement level over time.
- Green-shaded area contains the same information as the trend chart in a table that lists the date and time of each test, the PM window, the test name, scale score, and achievement level.

The second page of the student report contains additional information that will be more meaningful once a student has participated in more than one PM window.

- **Longitudinal Trend Chart:** The blue-shaded area displays a student's achievement level over time. The bottom of the chart indicates the date when the student took each test so you can compare performance between PM1, PM2, and PM3.
- **Progress Table:** The green-shaded area contains the same information as the trend chart in a table that lists the date and time of each test, the PM window, the test name, scale score, and achievement level.

GRADES 3-5 REPORTING CATEGORIES

- The content of each assessment is organized by Reporting Category.
 - Reporting categories group the assessed student knowledge and skills into broad content areas.
 - Each reporting category represents groups of similar skills, or benchmarks, that are assessed within each grade and subject.
 - The Individual Student Report contains student performance information for each reporting category.

ELA-Reading Reporting Categories

- Reading Across Genres and Vocabulary
- Reading Informational Text
- Reading Prose and Poetry
