

Thanks for your wonderful encouragement and thoughtfulness. However, I am not staying after school today due to doctor's appointment at 5pm.

Thanks,

Dr. Onyeagba

Thank you so much !!!!! you dont know how glad I am that you are helping my daughter. my number is 678-887-6026. I really want Erielle to strive to do better and not to settle. She has been doing a awesome job at that school. But I think that she see the kids there being lazy so she thinks it cool. I have had a talk with her. Next year Erielle will be attending a private school. Erielle personality do not fit in with the kids there, and she stated that they look at her different. Oh and erielle will stay after school today 3/7/2012 and when ever you have tutor

Good morning Mrs. Burns,

I have to apologize for not calling you yesterday due to misplacement of your phone number. I am very appreciative on telling your daughter how important education is, and also making our job easier by contacting us when progress reports come out.

I would endeavor to speak with her and per your request; some extra assignments will be given to her before the report card comes out. Please –email your number again, and mine is [770-861-2455](tel:770-861-2455).

Thanks,

Dr. Onyeagba

Hello, Dr O

How you doing Dr.O. I am sending you this email because I am concern with her math grades. I ask Erielle have she failed any quizzes, or tests. That you may have given her in class, Erielle stated that she have pass the assignments that you have given her. But I dont believe that, thats why I am contacting you to find out why she have a 74 in math. I explain to Erielle how its important to keep her grade point average up in school. I think Erielle having a hard time trying to be accepted at that school., she feel like no one want to be her friend and its bothering her self-esteem. she see the other student s there, dont want to do better and I think thats rubbing off on her. Erielle is very smart and intelligent child. I also explain to her that communication is the very important. what she dont understand she need to let you and Ms.Moss know. I told Erielle to ask you can she do some make-up work tommorw after school, and I also told Erielle to ask you can she get some extra credit work over the weeken. Before report cards come out, I explain to Erielle that she have a chance to pull all her grades up even her science grade and lang-art, social studies etc. She better pull them up, I told her you dont have to settle for that, make all A's if you want to. Please email me or keep in contact with me about erielle progress in class. I am very concern. and She know that she have to work hard for what she want.
