

Symphony Math At Home Instructions - Pomaikai Honu

Congratulations! Your school has implemented Symphony Math, which entitles your child to use the Symphony Math software at home. Follow the three-step guide below to start using the program. Please be aware that all support issues must be directed to the technical staff at your school:

Support Contact: Kate Welch
 Telephone: (808)873-3410
 Email: kate_welch@notes.k12.hi.us

Step 1: Download the Program

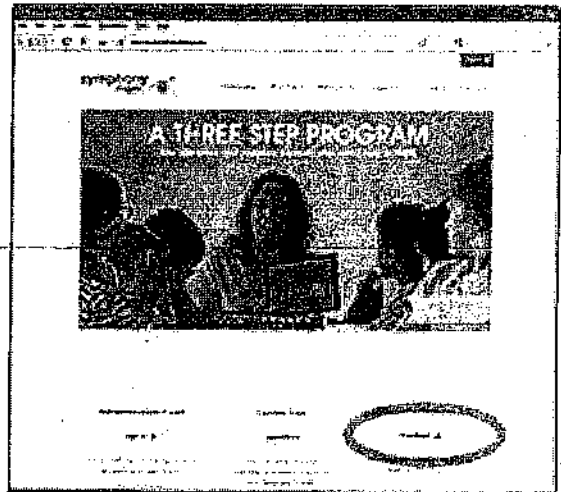

Windows and Mac OS:

Type this web address in your web browser to go to the Symphony Learning web site:
www.symphonylearning.com

Click on the Download link on the right side of the screen. Follow the onscreen directions to download and install the current version of Symphony Math.

iPad:

Go to the App Store. Search for 'Symphony Math'. Download and install the free app.

Step 2: Start the Program

When you run Symphony Math for the first time, you may be asked if you are using the program at school or at home. If you are asked, click 'Home'. Type the following information, as shown below.

School Account #: 2872
 Username:
 Password:

Get your child's user name and password from your child or their classroom teacher.

Once you see your child's information, you are ready to use Symphony Math.

IMPORTANT: The password shown above must be entered each time your child uses Symphony Math.

Step 3: Use the Program

During use of Symphony Math, the program automatically adjusts to your child's learning style and skill level, so no additional configuration or adjustments are necessary. When your child asks for help, teach them to press the *Lifesaver* button for hints. The *Lifesaver* button is located at the top right of the screen and alerts the program that students are having trouble. The program will provide assistance with the current question and adjust the level of difficulty on subsequent questions.
