Mountain Lions, the SEL word of the week is 'friendliness'. The definition of the word friendly is someone showing the characteristics of a good friend; such as being kind, helpful, or showing affection. An example of being friendly is smiling, waving, and saying hello to your friend or someone you just met. Mountain Lions, it's important to be a good friend to one another and show compassion to one another especially when your friend or classmate is needing help or may even need a friendly smile on a difficult day.
