- AB:
- Hits:
- Batting Average:

Formula

TONY ROMO first two games 2008 season (Question 1)

- Percent of completions per attempt (%COMP) =
- Percent of touchdown passes per attempt (%TD) =
- Percent of interceptions per attempt (%INT) =
- Average yards gained per attempt (YD) =

Steve Young's QR

Matt Ryan's (season) QR

What are the minimum and maximum value for each component of the

- %COMP: _____ rating?

- %TD: _____

- %INT:

- YD:

An index is a numerical scale. Characteristics of an index can be used for the following:

- to compare variables with one another or a reference number,
- to give information about general trends, and
- to help make comparisons and judgments.

It is often calculated as a weighted sum of various factors resulting in a single summary number. How can the quarterback rating system be thought of as an index?

- Research the Quarterback Rating for Michel Vick or some other former Atlanta Falcons Quarterback.
