

Quick Review for Unit 3 Test

Name _____ Date _____ Block _____

Find the pace for the following scenarios where x = # of miles and y = time in minutes:

x	y
2	15
3	22.5
4	30

#1 $y = 10x$

#2

#3 What is the pace for each of the lines below? Write equations for each line.

Write the slope-intercept form of the equation of each line.

4)

5)

6)

7)

Verbal Description

It is \$15 to get into the Spencer Fair and rides cost 2.00 each. Create an equation, table, and graph for this situation.

Slope = $m =$ y-int = $b =$

Equation

Define your variables: (words!)

$y =$

$x =$

Write your equation:

$y =$

Table of Values

X	Y

Graph (title and label!)

Questions:

- 1) What is the slope of the line? What does it represent in the situation?
- 2) What is the y-intercept of the line? Circle it. What does it represent in this situation?
- 3) If I have \$60, how many rides can I go on? Show your work.
