

Goals & Requirements

Parent involvement in each child's education is of great importance in ensuring a child's success in school.

As a Title I school, Rodney B. Cox is committed to the involvement of families. Families are encouraged to participate in the view and implementation of the Parent and Family Engagement Plan. Goals of the plan include:

- Coordination and integration of family involvement programs
- Annual meeting each Fall designed to inform families of the Title I program
- Flexibly scheduled parent meetings
- Implementation of activities that build strong family involvement
- Establishment of a school-home compact to promote the connection between home and school
- Encouraging on-going and open communication through a variety of formats
- Language translators to assist families as needed
- Staff training focused on communicating with parents

The plan encourages and supports full participation of parents in their child's education. Parent input will help guide the development of our School Improvement Plan, Title I program, Family Involvement Plan, and Family/School Compact. The SAC will review and update the plan annually.
