

SAE Planning Sheet for Agricultural Education Students

Name _____

Grade _____ Years in FFA _____

Proficiency Award Area _____

In the space provided, give a brief but a specific description of the SAE you plan to conduct this semester. Then answer the questions below.

What type of facilities or land area will you need? Will you need to use the school, or is this at home?

What type of equipment will you need? List all equipment, even if you already have it at home. Indicate the items that you do not have at home and will need help acquiring.

How will you finance this SAE? How much money will you need and who will provide this money?

I fully understand that I must complete a Supervised Agricultural Experience (SAE) project in one of the more than 51 proficiency areas. I understand that a minimum of 20 hours per year beyond the school day is considered the minimum time required to satisfy this requirement. I further understand that my SAE will comprise of 15% of my final grade and that no points will be awarded for the SAE unless this completed planning sheet and record book are submitted on time and my project is presented in class at the conclusion of the semester.
